Carpet Diem: Or...How To Save The World By Accident

Synopsis

"Douglas Adams meets Heart-Shaped Box...There are so many delightful surprises showcased within these addictive and extremely witty pages. Anderson has a flare for rather classic characterisation from Simon's introvert insecurity to the potty-mouthed loudness of his alcohol-swilling Great Aunt Harriet (one of only three survivors of the Debovar dessert massacre), a double act that should go down in literary history...Must read now! 5 STARS." ~ SciFiNow

"Gloriously quirky and hilariously inventive, Anderson's storytelling challenges that of the great Robert Rankin for sheer tongue in cheek originality." ~ Liam Rudden, Entertainment Editor, Edinburgh Evening News

"A spiritual successor to Good Omens" ~ AK Alliss'I laughed, I cried, I bought a fireside rug!' ~ Ian Pattison, creator of Rab C Nesbitt

"Anderson rockets onto the scene with this glorious romp of a book. It's packed with laughs, crazy adventures and characters you will love. Perfect for fans of Douglas Adams and Neil Gaiman." ~ Kim Curran

"Comedy gold!" ~ Heide Goody

Fifteen years after losing most of his family to a devastating, pudding-related tragedy, Simon Debovar has settled into a life of self-imposed exile from the stinking, selfish morass of humanity. Content that his daily highlights will include hazelnut coffee, a long bath and the occasional jar of olives, his life is completely upturned by the discovery that his ornate living room carpet is the deciding factor in a bet between God and Satan. When mysteriously well-timed carpet thieves deprive him of the crucial heirloom, Simon is forced to leave his hermit's existence behind for a world of angels, demons, witches and immortals. And then it gets complicated.

Imagine the big bang was a little mistake that rapidly spun out of control, the result of divine siblings messing around and being unable to stop it. Of course they roll with it, wagering on which species will evolve to dominate. But the game was rigged from the outset so that it isn't supposed to end in a stalemate. The title *Carpet Diem* is a play on the Latin for "Seize the Day". In this case, Justin Lee Anderson's novel might be called *Carpe Vestis* or *Seize the Rug*. A unique, ancient artifact that Simon Debovar inherits from his uncle, a renowned archeologist, is the source of considerable divine interest. You see, what Simon has decided to keep as his living room carpet proves to be the thirteenth and final piece of the ages contest pitting angels against demons. It is all they need to resolve the eternal competition, but according to the Rules, they must have the present owner give it to one or the other sides. The rug, along with the rest of Simon's considerable inheritance, came into Simon's possession thirteen years ago after nearly all of his relations die at a family reunion, the result of an apparent accident involving pudding. As the sole named heir he becomes instantly loaded. And he, an asocial sort retreats even further from society, holed up in an apartment as an antisocial hermit who generally hates people mainly because they smell bad. Simon has disabled his doorbell to prevent anyone from ringing it. But then, after more than a decade of silence, it sounds, waking him from his sleep. He doesn't answer the door so much from the curiosity of who might be calling but instead to learn how, after all this time, it has managed to ring. Those responsible are an unlikely pair, an angel named Daniel and a demon named Lily who have come bearing propositions.
