Canyons Of The Southwest

Synopsis

The canyons of the southwestern United States and northern Mexico contain some of the most dramatic landscapes in the world. John Annerino's pictorial celebration of this visually rich region is a handsome memento for those who have heard the wind whistling in these haunting canyons, and a beckoning invitation for those who have not yet made the journey. Annerino has spent much of his adult life exploring this territory--as a wilderness runner, adventurer, and photojournalist--and here combines his firsthand knowledge with his expertise as a nature photographer and author to create an intimate portrait of the region.

Book Information

Hardcover: 144 pages

Publisher: Random House, Inc.; First Edition edition (October 12, 1993)

Language: English

ISBN-10: 0871565528

ISBN-13: 978-0871565525

Product Dimensions: 0.8 x 8.8 x 11.2 inches

Shipping Weight: 1.2 pounds

Average Customer Review: 5.0 out of 5 stars [See all reviews](#) (18 customer reviews)

Best Sellers Rank: #1,920,266 in Books (See Top 100 in Books) #65 in [Books > Science & Math > Earth Sciences > Geology > Geomorphology](#) #856 in [Books > Travel > United States > West > General](#) #1722 in [Books > Science & Math > Nature & Ecology > Natural History](#)

Customer Reviews

Foremost are the photographs. I would call Annerino's canyon portraits the best of a really good lot, even over big-time large-format photographers. While the large-format works are stunning artistic studies of light and color shot with impossibly huge f-stops, Annerino's canyon photographs give expression to the phrase "wearing one's heart on the sleeve." His photos have an active passion that others lack. Anyone who knows him will say he is among the "hardmen" to tackle the Southwestern mountains and canyons, but that he is definitely the most sincere in his passion for place. Perhaps, because of this he lacks a calculated commercial view of the places he photographs. His images also record his own passion, creating compelling and unique photographs. More than any other contemporary outdoor photographer, Annerino's photos mirror his love of the land's people. In the text, Annerino portrays canyonlands people as part of what makes the places special. He has a deep affection for past and present native peoples, but unlike some Anglo North

Americans, Annerino isn't a lost 20th century soul. Rather, he seems to have a straightforward and genuine admiration for native people, and has learned a great deal about them. His research on each canyon's history is impressive. Annerino writes with an immensity commensurate with his subject. His style is old-fashioned, evoking an older, more grandiose era of writing of explorers like Powell and Pattie. While many modern writers seem bent on infusing themselves into as much of the story as possible, Annerino's style is not so full of himself as full of the intensity of his canyon experiences...
