Nova: A Scifi Alien Romance (Rebel Lords)

Synopsis

These ruthless aliens dominate everything they come across—especially their women. Julia Spear never expected to get abducted by a dangerous, wild alien warrior, let alone find him as attractive as he was deadly. She came to Shaviro to help oversee daily operations for the largest mining company in the galaxy, and it was supposed to be an easy job. But when Julia becomes a prisoner of war, she finds herself torn between her need for freedom and her overwhelming desire for the wild alien that took her. Nova, warrior prince of his Navani tribe, never wanted to find his mate during a raid on the human scum. Small, curvy, and gorgeous, the human girl attracts him more than he could ever imagine. Her scent makes his heart race, and he can't stop himself when he takes her as his prize. The humans are supposed to be his enemy, but he's sure that the girl is his true mate. Nova can't turn his back on his destiny, no matter how much he hates her people. The war between the humans and the Navani rages on, with Nova and Julia stuck in the middle. Unwelcome among the Navani and outlaws among the humans, can Nova and Julia find a way to survive this deadly war together? Adults only! This full-length science fiction alien romance contains violence, swearing, and lots of steamy sex. Nova is a standalone novel, no cliffhanger, guaranteed HEA, and includes the first book in the Rebel Lords series, Dracon!

Customer Reviews

Part of Administrator Julia Spear's job was overseeing important mining operations. But she had been away from home for some time now and she certainly didn't want to be on the planet Shaviro, especially with war raging among the populace. She was responsible for the contracts and approval before work could begin, so she had to be there. Her hovercraft took off for the meeting, and the next thing she knew, they were under attack! Prince Nova was not happy with humans and the destruction they were doing to his planet. He wanted to kidnap the important woman he heard was being brought in so he could use her as a bargaining chip against the humans. Nova felt that humans were greedy; overpopulation made them burn through their own resources, so they had to go out into the galaxy and take from others. Julia continued defending the human need to keep up our technology and expand. It was an enlightening summary of how things are today and the difficulties we face as we use up our natural resources. When Nova tired of her arguments, he repeatedly gagged her so he could enjoy the silence. Ruled by emotions, her arguments frustrated him. But day by day, she learned about his culture and respect started to build between the two of them. This was a good story and I think readers would enjoy it. It's about love and learning about what is important in your life. Love and family are the most important of all. I definitely recommend this book! I received this book in exchange for an honest review.

Second book in the Rebel Lords series, I am really liking this series. This is Julia Spear and Nova, is a warrior prince of his Navani tribe's story. She has come to oversee the mining operations on Shaviro, but gets captured by the rebel leader Nova he did not want his fated mate to be one of the hated Humans. What happens between the Humans and the Navani tribe? Does everyone want peace? What is the prophecy?

The second book (Dracon) actually takes place before the first one (Nova). Both books contain likeable characters and interesting plots. The humans are mining valuable resources on a planet and the local people are fighting to protect their planet and heritage. Toss in two women who get trapped between the two factions. Intrigue, action and romance.

Julie is an administrator for the intergalactic mining corporation and had to go to Shaviro for a new contract because they found dremalite and the company needed to know if it was worth the extra money needed to keep mining. Nova was a prince of one of the tribes on Shaviro. He attacked the convoy to get Julie to use her to get their people back. Problem was once he had her he didn't want

to give her back. I love the characters in this with all its action and drama. Syfy fans this one is great. Book given for an honest review and I honestly loved it.

This alien romance is a continuation of the series. Nova and Julia are on opposite sides, and one being an alien and the other human, but they somehow find themselves attracted to each other amidst a war. Kylie Gold writes a nice sci-fi romance, and this next book in her series is just as good as her first book. Enjoyed the development of Nova and Julia's romance, and there was definitely sizzle to satisfy. I received an ARC in exchange for an honest review.

Readers who enjoyed Dracon will also enjoy Nova. The plots in both books are similar and the main characters in Nova struggle to overcome preconceptions and stereotypes of other species as they find themselves increasingly attracted to each other. The author's writing could use a bit of polishing in places, but this does not detract from the overall story. I received an ARC in exchange for an honest review.

I received a free copy of this book in exchange for my honest review. This is the first alien book I have ever read I usually read regular bad boy or shifter books. I have definitely found a new type of books to love!! This book has me wishing there really were hot alien men out there like Nova!! If you like sexy, overbearing, protective men then you will definitely love this book!!

I received this ARC in exchange for an honest review. I really enjoyed the story. We meet Nova who is much more brutal than Dracon and only cares for his people. He has a true distaste for humans and won't be swayed. He gets wind of a female Administrator coming and he plans to take her and use her as a bargaining chip to stop the drilling on Shaviro, his home and fracking its resources. Although he stopped the beating of Julia not before she got really hurt. He wasn't all that sympathetic to her, but he did heal her injuries. They both hated each other instantly. He was pretty stubborn and refused to listen to reasoning from Julia. This whole situation was between the Navani people and the drilling company. I would have thought that the human government would have gotten involved but they didn't. Nova was a little disgruntled with his attraction to Julia and she was as well. As they got to know each other things seemed to blur for him a little and he realized a few things. He was really conflicted because Julia was his mate. He was losing too many of his people and something needed to happen to stop it. He ultimately realized a truce or agreement needed to be met for things to stop escalating and his people were wiped out. Nova's character

was off-putting for me at first. I grew to like him though. Heâ™s got a big heart under it all and heâ™s really protective of his people. I liked Juliaâ™s character but I think she was a little naive to what was really happening on Shaviro. Her job as an Administrator and approving drilling sites she was oblivious and I sorta felt she wasnâ™t doing her job very well. How could she when she didnâ™t know all the facts? She started to see things from the Navani peopleâ™s standpoint. Did they get their truce? What will become of the Navani? Can she really mate with Nova or are they too different? I recommend the book.
