Average Customer Review: 4.7 out of 5 stars [See all reviews](#) (9 customer reviews)

Best Sellers Rank: #1,102,332 in Books (See Top 100 in Books) #12 in [Books > Sports & Outdoors > Racket Sports > Racquetball](#)

## Customer Reviews

I love the instructions in this book. I have played this sports for many years until I had to stop for health (unrelated to racquetball) reasons. I will resume to playing soon as this is the best source of information. It is just GREAT.

I purchased this book because I was in a racquetball 101 class at Arizona State University and the author of this book helped instruct the course! The book itself is great, I personally like the way it was written. The book uses photos to help show the proper poses of the different serves and how to properly move/place your feet. I couldn't find that in many books about this sport. The author himself is pretty knowledgeable about this topic, I trusted his opinions and his instruction. If you want to learn this sport, this book is an awesome resource.

I purchased this book in effort to learn how to play racquetball and break up the monotony of going to the gym and riding the stair master for an hour. The game is so much fun! I love playing, and am getting a great work out doing it. The book is very simple to follow, and is set up with "tests" at the end of each section to make sure you grasp all the concepts correctly. I definitely recommend this

book for anyone wanting to learn how to play racquetball.

This book does a very good job of covering the basics of the game and providing drills to help you improve. I really liked the chapter on the service game and the detail on the different types of serves. His approach to court coverage from a defensive perspective was extremely helpful as well. I would recommend this book to anyone looking to learn or review the fundamentals of the game.

Darrin has done an excellent job of taking his Percentage Racquetball book, (which is an excellent resource for tournament players) and making it applicable for the beginner player. I purchased both, and gave the 101 book to my son in college. He had never played before, but is trying out for the schools racquetball team this year! I highly recommend both!
