Solar System (Quickstudy: Academic)

Synopsis

What is the surface temperature of Mercury? How many known satellites does Neptune have? What is the Kuiper Belt? Are there other dwarf planets besides Pluto? Answers to these and other questions about our solar system can be found in this jam-packed 2-panel (4-page) guide. Comprehensive, up-to-date facts as well as full-color illustrations about planets and other solar system objects are featured in our easy-to-use format.

Book Information

Series: Quickstudy: Academic

Pamphlet: 4 pages

Publisher: QuickStudy; Lam Chrt edition (December 31, 2009)

Language: English

ISBN-10: 1423209524

ISBN-13: 978-1423209522

Product Dimensions: 8.5 x 11 x 0.1 inches

Shipping Weight: 0.8 ounces (View shipping rates and policies)

Average Customer Review: 4.7 out of 5 stars See all reviews (6 customer reviews)

Customer Reviews

I need to learn asap! I soak up info ridiculously quick (lack of a much better word) I have purchased about 6 of these. I know what I like and with these quick studies I know where I have to move my learning towards. Great for the want to know it all as I .Or just help with school. Thanks to them. I am in med school and am a quantum physics PhD student!! I know there are the oh yeah right or wow she must be a genius no I am so lucky we live in a world where learning is forever. Anyone can do what I do but if you do not "feel" it, then find your voice! Back to these pamphlets! Awesome! Thourough! Go for it!!!!!! Win win they have knowledge and you are seeking it!

Does not show the entire solar system in one picture, which is exactly why I purchased this product. Other than that, I guess it's ok.

I'm not good in any science class, but this quick study guide really helps... Would recommend it to anyone studying astronomy
