Combat Shooting With Massad Ayoub

Synopsis

Combat Shooting with Massad Ayoob is written by America's best-known combat pistol shooter, Massad Ayoob, who is credited with the idea of "stress fire" In this book, Massad speaks about mindset and jumps right into the aspects of learning combat shooting. Next, he highlights three gunfighters Wyatt Earp, Colonel Charles Askins and Jim Cirillo and the lessons we can learn from each. Lastly, Ayoob shares his perspective on the importance of competition as training before closing with a discussion of the choices involved in being responsibly armed.

Shipping Weight: 1.2 pounds (View shipping rates and policies)

Average Customer Review: 4.3 out of 5 stars [See all reviews](#) (146 customer reviews)

Best Sellers Rank: #73,205 in Books (See Top 100 in Books) #49 in [Books > Sports & Outdoors](#) > [Hunting & Fishing](#) > [Shooting](#)

Customer Reviews

First off I have to say that I am thoroughly disgusted with several of the negative reviews posted for this book since the the negative comments are aimed directly towards the apparently poor transfer from print to e-book format. Just because the quality of the transfer from one format to another is of poor quality does not mean that the content of the book is questionable. I have an actual physical copy of this book lying right next to the keyboard as I type this and I can attest to the fact that the quality of the content contained in this book is nothing short of fantastic. Sure some of the information, okay most of the information, is "old hat" and has been around for quite awhile and has definitely been in print before in other formats, but that doesn't take away from its quality in the slightest. Good information is still good information. Now as far as the Kindle format is concerned, this is a problem that should be addressed with the publishers and not the author, and especially not the content of the book. I have been a fan of Mas Ayoob ever since I first read, Ayoob Files: The Book and his other oldie but goodie, In the Gravest Extreme: The Role of the Firearm in Personal Protection, of which I am a firm believer that both of these books should be in everyone's personal

library. Now on with the review...This book is broken down into five chapters of which I will give you a brief synopsis of what each chapter contains.
