House To House: Growing Healthy Small Groups And House Churches In The 21st Century

Synopsis

House to House documents how God transformed a small fellowship of young believers into a worldwide movement. DOVE Christian Fellowship International grew from 25 people to a cell church of over 2,300, and then transitioned into a family of small group churches and house churches that is now networking together throughout six continents. This field-tested book is a blueprint and training guide for believers, Christian leaders, and churches to make an impact on today's world, and serves as an invaluable tool to train potential leaders. The House to House model will inspire churches across the country, transforming them from individual congregations, large and small, into church-planting movements, encouraging many to start new churches to reach the coming harvest.

Larry Kreider's book "House to House: Spiritual Insights for the 21st Century" (1995 edition) is 216 pages long and is divided into 17 chapters and 2 appendices. The main focus of the book is introducing and instructing the reader on how to build a successful evangelistic cell-based model of the church for greater missional impact. There are several strengths. First, it is written by someone who has years of experience as a pastor of a large mega church using a cell group model and who now leads an international network of cell and house churches (DOVE Christian Fellowship International). Second, it is an easy-to-read, step-by-step, practical work that is meant for a popular level audience, which will be a useful tool for anyone interested in the topic. Third, the author is mission-driven and is not satisfied with people just getting streamed into inward-looking small groups, but rather wishes to help reap a harvest among the lost. Fourth, there are numerous

anecdotal stories that help the reader understand how this can work in a real-world context, as well as stories from the author's own experience that is spread across several chapters. Fifth, the book examines many relevant issues, such as evangelism, leadership training, multiplication, dangers/pitfalls to avoid, biblical leadership examples, etc. There are some weaknesses to the book.
