Customer Reviews

After reading Craving, the first book in Helen Hardt's Steel brothers trilogy, I was so ready for Obsession, and it did not disappoint! The continuing story of Talon and Jade is both beautiful and heartbreaking. Because I have endured a childhood sexual trauma, I was wary of reading about Talon's horrifying childhood physical and sexual abuse. However I found that I was pulling for Talon and hoping he would get help, because one can be healed from past abuse. Falling in love with

Jade gives him hope for healing from the past traumas, and that is beautiful. I love the visual I get of both characters with the writing, and it is great to see the other family members again from Craving. I love the way Helen Hardt writes; it brings the picture to my mind, and I get lost in the book, and they become my book friends. And of course the sex is amazing and well written. The cliffhanger at the end of Obsession is diabolical Miss Helen, however it surely makes me want to read Possession! A fantastic read for me! I tried to read it slowly and savor the story, however once I started, I could not stop. I Love Love Love this series!!!

Wow, this book (2/3) is so well written. It brings the characters to life and keeps you guessing. I have my suspicions of who these 3 men are, 2 of them are definite. I honestly would've never thought who the second guy was. Seriously, you need to read these books!!

This series is amazing. Helen Hardt really knows how to bring out the darkness and pain that reside in the character's life which allows readers to become invested and emotionally involved in the story. Now, as I said in my note, this book is the continuation and Talon and Jade's love story. Their love story, while it has its sweet pieces, is ultimately dark and tragic because Talon is unable to get over what happened to him when he was 10 years old (you'll know all about this if you have read CRAVING). But we do get to see a lot of character growth in this novel when it comes to Talon, which makes him all the more relatable and lovable for all readers. We also get more of a backstory in terms of Talon's tragic past, and get a little glimpse of who these monsters that kidnapped him are. All of this put together makes for a very strong book that will leave readers not only haunted, but extremely satisfied. OH | And when you read the ending?!?! HOLY COW. A major plot twist. Yikes! If you haven't read this series, I strongly suggest picking it up. The books are pretty fast paced (I read both in just a few hours) and the story sucks you in from the get go. I honestly cannot wait until the final book in Talon and Jade's series comes out next month. I simply NEED to know what is happening! Oh, yes | It does end in a cliffhanger too | This is only the second book that I have had the pleasure of reading by Helen Hardt and I have to say I am quickly becoming a huge fan of her work. Her writing style is on point- there has never been any confusion as to which characters are giving us their POV's- she weaves a tragic yet beautiful storyline that immediately hooks all readers- and she uses vivid descriptions about the past and present. All of this put together makes for a fantastic story and I think all readers should give her work a try! Highly recommended!

As with 'Craving', I enjoyed the book and look forward to the next book in the series. The only thing I did not like about this book were the grammatical errors, misspelled words, and incomplete sentences...which is why I only gave this book 4 stars. This author needs to hire a proofreader if she aspires to be a professional writer. There were way too many errors for this book to be considered a professionally written novel.

Omg, omg!!!! This book is soooooooo goooooood! I can't wait for book three. I started book one and ran right into book two. This book is everything, drama, love, raw sex, mystery. It is fantabulous. I so recommend this series. Putting the pieces of this puzzle together is fascinating. The kidnapping of the little boy, the trauma on the physique as an adult and being able to find love amidst all the turmoil, working on healing by getting the help he needs so he can have a normal life with the woman who loves and trust him completely. This woman who is in a position to help him and he does not even know it. Omg, as not to give any spoilers away I must end this review. I am totally excited for book three.

I don't even know where to begin! Helen should be contacted for a miniseries with these books! I was hanging on for dear life as the story of the Steels & Jade continues to unfold! This series has it all! Love, sizzling sex, angst, mystery...etc. I could go on and on about this series and author but you've got to read it for yourself! Three only thing I'm sorry about is having to wait until September to FINISH! I'll have a breakdown before then! LOVE THIS!

Great feed very intense and addicting a very taboo subject for many but still an issue that must be dealt with in our society that has been kept quiet for too long. This series is a great story telling of good versus evil and winning over the evil to find love.

OMGosh... Another fantastic book in this series! The Steel Brothers are HAWT cowboys, and Helen Hardt leaves nothing to the imagination in this riveting story. I get mad, laugh out loud and feel the pain of these wonderful characters. This book is well-written, so the book flows quickly and when you are done you only feel regret wanting more. I can't wait for the third book, and know this will be one of my favorite authors for a long time! Enjoy!
