Customer Reviews

Quite good for a dating book. The title is somehow catchy, makes you want to scan it. Although we cannot really generalize how women choose men, what this book says somewhat gives men an "idea with a twist" on how to win the heart of the person they like or they're pursuing. The tips are

not that bad as well.

More often than not, nice guys finish last. You may argue that it's just a saying or a bumper sticker, but for those who have experienced it first hand, it is very much real. Sometimes you get the girl, being a nice guy and all, and you actually make her happy; a few months/years down the line she leaves you for a "bad boy" because you were just not so "exciting" anymore, whatever that means. Here the author dives deep into helping guys understand why it is that women prefer guys who are likely to hurt them, and doesn't have much to do with physical appearance, trust me. It is all natural selection; so dive in and see how to attract women without losing who you are.

Very helpful book with great guidelines and important tips. In a sea of mixed and confusing advice out there is good to find a book like this one, where everything is explained in a easy manner to understand so a nice typical guy can go outside and practice the teachings of this book in a way that women find attractive. Well done to the author. Recommend.

Face it guys, if you're being nice or if you're nice in general, most of you (us, I consider myself to be a nice guy as well - at least for now) will get hurt and end up envying those who are, basically, acting like pricks, but attracting a lot of top-notch women. It hurts, I've been in that situation many times, and I must say that I found this to be more than just helpful - it could turn out to be a life-changer for me. The author teaches you how to behave in certain situations and occasions in order to attract the attention of all those women you used to consider untouchable, above your league. Once your confidence grows a bit and you notice that implementing some methods from this book is actually paying off, you'll become a playboy yourself in no time. Take this trip, learn a thing or 2 from the author and you won't regret it.

a great book!very interesting and intriguing, have a lot to learn, and remember that where psomeyatsyathank you very much to the author!really want to read it again! recommend to all !

This is a book that deals with one of those crucial topics that everyone thinks about from time to time.Why do nice guys lose? The author offers a serious,concise explanation about the issue and gives advice on how to avoid being in this situation.I would totally recommend this to all the guys out there with this kind of problem.

Full of interesting things to know. I really liked this book! You can learn How to be comfortable with your own masculinity, then Why you should tell her she looks fat in that dress. You will also get to know the power of making statements, not asking questions. So, all in all, I liked this.

Honestly, this is the first time I read this type of book, and I'm positive surprised. It was very interesting and enjoyable reading. This book is fulfilled with invaluable advices. Well written and easy to follow. It is recommended for everyone who wanted to be highly desired and preferred man.
