# The Manual: What Women Want And How To Give It To Them

## Synopsis

The Manual is the ultimate and only guide to getting girls and to understand women once and for all. This is why guys that read it don't read or recommend anything else. Because the few men who "get it" spend the rest of their lives enjoying sexy girls in abundance and so can you. You can learn to get ANY girl you want, the same way that all men who are naturally good with women have. The only difference is that you may learn it much FASTER, instead of wasting tons of time and money on fruitless dates or a new car/haircut/shirt that you BELIEVE will make you more attractive but really doesn't. You see; men LACK success with women because they either don't understand what women are attracted to, or because they THINK that they do know, but have the wrong ideas and hence waste a lot of time - sometimes their entire life - chasing things they don't need. You know you have to get this book if you believe women want men with money, cars, or anything else that is manmade, because that doesn't make any sense. If women really were attracted to something unnatural, how did men meet women before any of those things were invented? The approach you'll learn in The Manual is very different from conventional dating and the advice you find in the mainstream media because it focuses on natural attraction on what women REALLY want not what they CLAIM they want or what males in general BELIEVE women want. It incorporates men's and women's socialization and explains phenomena such as why men think women are attracted to things such as money (yet money is a man-made invention that has not even EXISTED very long) and why women play hard to get (a well-known phrase which amusingly reveals that women ARE easy but only pretend not to be). This is why the beginning of the book addresses your basic beliefs and mindset, because if you learn to THINK correctly, you will automatically behave correctly around women. Even if they are so stunning they normally take your breath away, your mind goes blank, and you run out of words. You already have what it takes to seduce women. Like, if you never run out of words around your close friends or family, you should be able to talk to a hot girl without making a fool out of yourself. The reason you seem to be a different person in such situations is because you ARE you are NOT being yourself! You act differently because you were socialized to sabotage yourself. The Manual teaches you how to unlock your true potential and to bring out the real you not change you into someone you are not. The method presented to get girls works on all women, no matter what language they speak, how young they are, or what type of relationship you might be looking for. It's universal because it's based on natural attraction, what all women are hardwired to respond to, and attraction is an emotion, not a decision. You can use it to get a sexy girlfriend, one night stands or even long-term relationships. You can use it to find true love, a soul mate, or just casual sex without commitment.

And one of its best benefits is that it will make women want to be with you and appreciate you. The girls you get will REMAIN attractive even after you have formed a sexual relationship with them, because they are so happy to be with you. While most other guys who do get (average) girls, often find themselves with an average female who becomes even less attractive over time as she stops taking care of herself completely. All other dating books simply repeat conventional wisdom that doesn't work very well in reality, and even the best ones are about ACTING like an attractive man, not on how to BECOME one. But the problem is if you go around acting like someone besides yourself, even if you do start getting girls, it's not really YOU who are getting them. The Manual will show you how to get laid like a rock star, without being one, and without pretending to be one either.

The Good: For SeductionI will first express the positive aspects of this book, read below to find out my criticisms and the danger of following these rules. Let me first start of by saying that this book does provide tons of useful information to understand the dating world, females, and males; and how they all interact together. It begins with the philosophy and biology of males and females, which adequately explains a lot of the perceptions that people hold about what "attracts" someone to another person. This is all good information. It then explains the three "traits" that women find attractive in men:1) Confidence: confidence is the "appearance" of being confident and decisive. The author explains that you do not need to actually "be" confident, but you must appear so through your outward appearance (movements, speech, actions, etc.) Since a woman is unable to actually read your mind, you are able to express exactly the appearance you want if you aware of your

actions.2) Responsibility: responsibility includes being a leader, dominant, and essentially doing what you, the man, wants to do. This borders somewhat on concepts of confidence.3) Charm: charm is the ability to make others, in particular women, feel good about themselves and comfortable around you. This is done through the way you talk to them, your body language, and the topics of discussion. Now the author explains that each of these skills will assist in building attraction in a woman. I do not disagree. Matter of fact, I intentionally adopted (over a few weeks of practice) these traits and before I knew it, I had an attractive girl chasing after "me" and begging to date me. My past history: I have never dated anyone seriously, and was afraid of interacting with girls.

Those who have seen the movie 'The Tourist' starring Johnny Depp and Angelina Jolie, probably remember the train scene where the two meet for the first time. Depp plays a seemingly very apologetic man (Frank) and Jolie a very attractive and elegant woman (Elise) and she has her reasons to make contact with Frank. She spots him as she walks through the railcar, sits down right across him and looks him straight in his eyes as he quickly closes his book and stops smoking. Frank: I'm sorry. Elise: What for? An awkward silence follows and Frank laughs uncomfortably. Frank: Mind me smoking? It's not a real sigarette blablabla (explanatory nonsense). Elise: That's somewhat disappointing. Frank: Would you rather have me smoking for real? Elise: I would rather you'd be a man who did exactly as he pleased..... I'm Elise. Frank: I'm Frank (the conversation continues until Elise suggests something). Elise: Ask me to dinner. Frank: What? .... Okay... Would you like to have dinner? Elise: Women don't like questions. Frank: Join me for dinner. Elise: Too demanding. Frank: Join me for dinner? Elise: Another question. Frank: .... I'm having dinner, if you'd care to join me. Elise smiles and accepts. Even though most hollywood movies dramatically misrepresent what women want in men, this scene brilliantly paints what women truly desire in men. And reading this book directly reminded me of this scene. If you want to become the type of man that Jolie describes in this scene, than this book will show you how to become that exact man. No gimmicks, no tricks, no scripts, no bs, only what's truly necessary to understand. What women want is not that complicated, you just have to be presented the right information.
