I love Siggy's advice on the Wendy Williams's show. This is a sweet, lighthearted little book and a

good reminder not to give up on love. Siggy gives a lot of advice about focusing on yourself. It's a great confidence book and one that I would recommend to friends after a break up.

This book has it all- great advice served up with humor and grit. Through this book Siggy helps engage the reader with straight forward advice and examples from her own experiences. I have read a lot of self help books and this is the first one that once I started reading, I could not put it down. This is one that you will want to read again and again.

This book is a must for all those in a relationship, looking for a relationship or those who think they're hopelessly single. I love this read and found it so helpful to me as I navigate the rough waters of life's path to love. Siggy Flicker made me laugh out loud yet makes perfect sense out of the crazy world of relationships. Although this book is written by a woman it is a perfect guide for men. It has improved my relationship with my beautiful girlfriend. This book is a must to be read over and over again. Plus her appearances on TV are priceless.

This is not just a book for women looking for love. I am married with 2 kids and this book is for me! The advice and wisdom Siggy shares is helping me in my marriage, my family and my friendships. Siggy has written a book about self respect. She gives us the best examples from her own life...she is a woman who absolutely created her own fairy tale...even after the trauma of divorce. I am inspired by this book. It made me laugh out loud but also take a good hard look at myself. This book is a game changer and Siggy is my new FAIRY GODMOTHER!!!

After being out of the dating game for four years it was hard to even consider dating other people after my break up. Siggy Flicker provides great insight into the dating game that I found quite useful. I don't think I could of been out dating so soon without this book. Great read I highly recommend!

What a truly inspirational book. Having two daughters I am so lucky to have this book for them to read. It is so funny and fast pace. This will really give my girls an insight on dating and how they should handle themselves. Great job Siggy on showing how it really should be done! Wish I had you years ago when I was going through this! A book for everyone!

This book was just ok. Nothing really new a about relationships or how to make your own romantic dreams come true... I was intrigued because she's on Real House Wives of New Jersey. Maybe

good for a young audience. Definitely read a sample before you purchase.

I loved this book so much I read it in a few hours. As a certified Lifestyle Coach I will recommend it to all my clients and friends. It is loaded with feel good advice for all ages! It is a confidence boosting, fun, inspiring read. Siggy's book can turn anyones "lonely, single" life into a fun journey that will lead to true love. I loved reading her husband, Michael's interpretation of what guys really want as well. They are a "real life" fairytale!
