# Under The Radar (Sisterhood Book 13)

## Synopsis

In *The Middle Of The Night, The Sisterhood Is Your Only Hope* A Sister™s work is never doneâ not when there are wrongs to right and underdogs to defend. Just returned to their mountaintop hideaway after their latest successful mission, the seven fearless friends enjoy a celebratory dinner and retire to bed. But within an hour, an alarm sounds, and the ladies rush into the compound in time to see Myra and their mentor, Charles, climbing aboard a helicopter. All thatâ™s left is a mysterious note, signed by Charles. Still reeling, the Sisters receive an urgent call from retired justice Pearl Barnes. Pearl runs an underground railroad to help abused and displaced women, and sheâ™s just rescued fourteen pregnant teenagers who belong to a highly secretive and controversial polygamy sect. But keeping the girls safe will require the kind of help only the Sisterhood can provideâ if they can band together and go it alone...Praise for Fern Michaels and her Sisterhood novelsâ "Revenge is a dish best served with cloth napkins and floral centerpiecesâ fast-pacedâ puts poetic justice first."â Publishers Weekly on *Payback*"Delectableâ deliver[s] revenge thatâ™s creatively swift and sweet, Michaels-style."â Publishers Weekly on *Hokus Pokus*

## Customer Reviews

This is the 13th book in the Sisterhood series, featuring a group of women who have formed a sort of secret vigilante group. If you haven't read any of the series yet, I wouldn't recommend starting with this one, as I didn't feel it was very strong. Okay if you already know the characters, not so much if you're new to the series. The book starts off by the vigilantes losing Charles, their main strategist, as he heads off to deal with a personal crisis. Myra, his lady love, goes with him at the last minute. Their's is a secondary story, but it wasn't very satisfying and I didn't really like it. Didn't feel right for some reason, especially how it ended. The main story is the remaining women taking on their first "mission" without Charles leading the way. They have to come up with their own plan, transportation, support system, and exit strategy for the very first time. Actually, they don't do too bad, but some things were a little too easy. Plus, for a group of intelligent women who have already completed several successful missions, they seemed a little clueless at times. And Jack and Harry's behavior was downright annoying. While I in no way, shape, or form condone polygomy, I didn't like the way the polygomists were portrayed in this story. Yes, the men were slime for brainwashing and treating the women this way, but there were too many stereotypes running around. And the way the Sisters treated the women at the end was uncalled for and a little mean-spirited. Not very Sister-like at all. All in all, didn't feel that the plot was as well done as past books in the series. Fern Michaels is a better writer than this, so not sure what went wrong. Maybe it's time for the Sisters to retire and have Fern move on to other series.
