Rusty Wilson's Alaskan Bigfoot Campfire Stories

Synopsis

Always wanted to go see Alaska, the 49th state, but never could work it out? Well, never fear, because after these stories, you'll probably change your mind and decide to instead visit someplace safe and predictable. In this baker's dozen of all new and original stories from Rusty Wilson, the World's Greatest Bigfoot Storyteller, you'll see an Alaska that few see, an Alaska that maybe even fewer want to see, and an Alaska that puts all the other states to shame for mysterious places and happenings, as well as having the highest number per capita of people who go missing without a trace.

Customer Reviews

At last, a new collection of Bigfoot tales from the master, Rusty Wilson. Sit back, relax and be very glad you aren't anywhere near the boonies in Alaska! This is a great collection of stories of Bigfoot encounters set in the largest state. Bigfoot lovers know that while they are found in all U.S. states except Hawaii, the ones in Alaska tend to have a fierce reputation, more so than the ones in the lower 48. This collection will definitely keep you hooked. I read the book in one sitting, it was engrossing. No spoilers here, but suffice it to say, most of the folks whose wonderful tales are shared left Alaska. There are many tales where you will say OMG, and have to reread a passage again. As always, the tales are told with love and respect and you may not want to read this at night with the lights off. The Alaskan Bigfoot Campfire Stories is the latest in the Bigfoot Campfire series. If you enjoy this book, and you will, check out the other books in the series. They

are all equally fantastic, well written and much more interaction than someone who saw a figure on a highway, for better or worse. I have them all and they are all great even after multiple reads. Must reads include, "The Hairy Trio of Bigfoot Stories" and the excellent, "Ten Intense Bigfoot Campfire Stories." They are all highly addictive. Don't forget to check out Rusty's blog and say hi, he loves to hear from fans.

I have read all of Rusty's books. I like to take them to my cabin in the woods in the middle of nowhere. I scare myself silly, then don't sleep all night. Rusty is a natural story teller. The books are well written. I think Rusty should be chained to a table and forced to write 24/7 so his fans don't go through withdrawal. Another great book.

I've followed Rusty's books for a couple years now. Perfect for getting a little spooked and curious at once. I believe I like them because they're similar to the stories I heard around the campfires when I was a kid. I live in Washington state and yes I've had my own experiences with "Skookum". If your interested in the subject and wish to be entertained these books are perfect....the Big Guys are very real.

I was delighted when Rusty's latest arrived on my Kindle. And it didn't disappoint. At one point, while engrossed in a particularly spooky scene, my upstairs neighbors decided to start thumping around on their balcony. It took a couple of minutes to realize that's all it was.....sThee stories will raise the hair on the back of your neck, and as usual, leave you wanting more. Enjoy!

Rusty has done it again! His latest book is absolutely awesome. I can't put down these books once I get started and Rusty delivers every time. The stories are just so entertaining and riveting. I wish he would complete one of these books every week! Can't wait for the next one.

I never get tired of Rusty Wilson's collection of Bigfoot stories! As long as he writes them, I will read them! These are the types of books I will continue to read for years to come. The stories make me wonder about what is "out there" and yes, make me hesitate just a bit before entering wooded areas, especially in national parks. But, I will keep reading these stories! Thanks Rusty! Keep them coming!!

I liked the book, of course, but there was one thing that was a bit frustrating and a bit different than

the other Rusty Wilson Bigfoot books. At least in my perception. It seemed to take an awful long time for the story to get to the Bigfoot encounter. Longer than in the other books. A couple of times I even forgot what kind of book I was reading. So thought I liked the book, the stories were longer than I was used to and it seemed there was more story than actual encounter. Maybe my perception was off, I don't know, but that's how it came across to me. I'd still recommend it.

Rusty 's collected some of the most interesting bigfoot stories ever! Some are thought provoking, some terrifying, and some boggle the mind, but they are truly must read material! I look forward to every single release. If you have never read one of Rusty's books, you are in for a treat.
