# One Reality: The Harmony Of Science And Religion

## Synopsis

One Reality: The Harmony of Science and Religion is a compilation of passages from the Bahai writings that explores the relationship between science and religion, and demonstrates the Bahai perspective that the two seemingly opposing forces can live in perfect harmony. As Abdul-Baha, the son of the Prophet and Founder of the Bahai Faith, states: "If we say religion is opposed to science, we lack knowledge of either true science or true religion, for both are founded upon the premises and conclusions of reason, and both must bear its test." • Meticulously researched and compiled by Bonnie J. Taylor, One Reality offers a comprehensive overview of the subject from a Bahai perspective, and includes a thought-provoking and challenging introduction from John S. Hatcher, a highly respected academic and the author of numerous books about Bahai scripture and theology.
