# Visual Prayer: How To Create A Spiritual Vision Board

## Synopsis

Our minds respond strongly to visual stimulation. A powerful way to bring your goals to fruition is by creating a vision board that uses pictures, images, and affirmations as a tangible representation of your dreams, goals, and ideal life; however, when we consider using the vision board as a visual form of prayer, not only do we add another dimension to our prayer experience but we also create a vision board that moves beyond religion to engage our spirit and enlighten our soul. In the book *Visual Prayer: How to Create a Spiritual Vision Board*, Dr. Green shares this free will philosophy through an easy 4 steps process, that you too can use to create one of the most valuable visualization tools available - a Spiritual Vision Board.

## Customer Reviews

I love the way Dr. Cris reminded her readers in each chapter to keep God first in all that is done. I loved how she broke down the ask, believe and receive; using scripture as a point of reference. Reading this book was a thought provoking reminder to me personally that I have work to do; God hasn't given up on me, He is my daily provider. My job is to ask in faith, believe that He is faithful to His word and place myself in a position to Receive all His blessings. I also enjoyed the different examples of the vision boards...a blessing to all of those who want to make 2016 a year of blessings overflowing. Thank you Dr. Cris!!! Be blessed

Dr. Green's "Visual Prayer" makes it ok to dream ridiculous dreams and helps the imagination reach for the impossible. No filler in this bookâskimming over fluff and turning pages to get to what is relevant is not requiredâconcise, thorough and clear.
