## **Customer Reviews**

Except for the story by Eva Devon which was a good story, but had no real ending, these were all very interesting books. I like continued series that include families so many of the same characters are in all the stories, but each story should be a complete story in itself. Thanks to all of the authors, you get a thumbs up for the enjoyment I received from your wonderful books!

As I read and loved the first story, I expected the next to be inferior, but, each one had a plausible plot, characters I cared about, and even a few tears were shed. The themes were similar, a beautiful bad boy, stern yet beautiful, falls in with a feisty young woman, they clash, then love. But, somehow each character became whole, real. I cared what happened to them. These writers, all different, yet created memorable people. Loved each one.

The most difficult thing to do when reading a story is to stay engaged when there are spelling editing and grammatical errors. They cause confusion frustration and halts in the flow of the story and

writing. It seems to be common place now in books especially ebooks.

A few too many mistakes for five stars but it was enjoyable, don't know why but it seemed as if it ended sooner than it should have

I have enjoyed every book chosen for this set. Every single one! I've already read Kathryn's book. I don't miss any of hers.
