Customer Reviews

I absolutely love historical fiction and anything having to do with fragrances. So, the fact that the author blended both elements together was both intriguing and cleverly done. The Perfume Collector is beyond exquisite; exploring mystery, societal issues concerning women of two different

period in time, and of course, the beauty of romance and how various scents come in to play with intimacy among other things. This story was truly a journey of self-discovery, and I was intrigued by every thing it had to offer. For one, the main characters. I liked Grace. My perception of the kind of person she was grew the more I read. Her personality came off as kind, accepting, but beautiful without understanding the meaning of the word and how she embodied that within herself. And towards the end you begin to see her character experience growth and start to acknowledge things she was apprehensive about in the beginning. I was happy that the author enabled Grace to breathe in a new found air of independence and come into herself a bit more. And as for Eva, well, I was completely taken by her. As oppose to the life of Grace, Eva's was no fairy-tale She experienced the good and the ugly, and the fact that she overcame so much was just impressive. enjoyed the time frame and moving from one to the other, getting the chance to learn about both women and establish the connection that became quite clear early on. The whole mystery of Grace finding out about Eva and the reason for her inheritance was really well written. By the time I figured it out I wanted to shake Grace and ask, "don't you see?" But her wanting to hold on to HER truth was evident throughout the pages, and the moment she caught sight of what was really real then it all gets even more interesting.
