## Customer Reviews

I really enjoyed the start of the HRT series with its ongoing action on the trail of domestic terrorists and some really hot romance. Marked " the story of Jake and Rachel was so good as two friends who were always attracted to each other but timing never worked out but as Rachel finds herself targeted by a terrorist all because of her job, there is only one man she trusts to investigate and find out if she's paranoid or not. There was a lot of action and some good suspense in this novel and I liked how there really was no great tension between Rachel and Jake, just two people who decide they want to be together and never waiver from this. Targeted " after being introduced to Celida and Tuck in book 1 they are now the stars of book 2. Once again there is a background story of domestic terrorism being investigated and once again we have two characters who have been friends for years fighting an attraction for each other until the realities of their job and the dangers they live with rear their head so they don't want to waste any more time. Hunted " I really liked the evolution of Clay and Zoe's relationship. Unlike the first two books where there had been this

foundation of friendship Zoe and Clay meet as Zoe is Tuck's cousin however Clay is very closed off because of his ex-wife and so despite an attraction nothing happens between them until Clay and the team head to Zoe's town of New Orleans for a conference, and wow when Clay's walls come down these two are hot together! Unlike other novels there isn't the underlying terrorist threat and instead the action and danger comes from Zoe's part-time job at a woman's shelter but still the action and suspense is the same as the others so another great book for the series.

The characters in the series are all very well developed. Sometimes in a series, you can run into the same old things with characters, but Cross does a fantastic job of creating different, unique, layered characters in each of her books. The plots are original to each book as well, which I thoroughly enjoyed. The intimate scenes fit each of the characters perfectly and are well placed in the stories. Each one brings out the heat whether it is slow and sweet or hot and heavy. They are tailored so well to each story and plot that you never know what is going to happen or when. Each book is set up nicely to introduce the next one. I love it when we get a glimpse of what is to come from the characters. Cross is a fabulous storyteller, too. She knows just how much detail to give you during each operation the team is tasked to keep you in the thick of the action but not so much that you get a little lost and drift away from the scene. It is a great balance. If you are fan of romantic suspense, I very highly recommend you give this series a try. You will be glad you did.

**MARKED... 4 STARS..** Rachel works for an architect. Some of her USBs are taken and they contain building plans. When she recognizes one of her brother's friends as a terrorist on the FBI's most wanted. She reaches out to Jake, an agent for NSA and he is more than happy to help. Then her brother is kidnapped and they want the building plans in exchange for her brother. I'll be honest it just couldn't hold my attention for some reason. You have sex, terrorists, and hunky military men.**TARGETED..5 STARS...** Celida and Tuck were partners for two years in the FBI. He went on to the HRT and now he is after her for a relationship. Celida doesn't do them but she's willing to try for him. There is a crazy bomber setting bombs off in the city and they are racing to find his next target. Full of suspense, hot sex, and muscular guys. **HUNTED..5 STARS....** Clay has been burned by his ex wife and it has left him jaded. But something about his leader's cousin makes him want to try for more than a one night stand. Zoe knows Clay doesn't trust his judgment about women but wants to show him not all are like his ex. When Zoe is kidnapped, Clay is afraid he'll never get to tell her how he feels. So now it's a race to find her before it's too late. Full of suspense, edge of your

seat action, and hot muscled men.

Three stories about special guys meeting the one goal not only bringing them to their knees but lifting them back up. A taste of both perspectives and a well written read. Heart pounding, non stop action and exciting books for all.

The caricatures are well developed and likable. I recommend this book if you like lots of romance and sex. It could have had a little less of the sex and more action for my taste but overall the books are worth reading

I believed my deceased husband and I had explored all intimate options, but this series has given me a new ideas....even if I have to grab for "toys"! LOL! Love has no limits.Kayla knows all the right moves....and knows how to stop a heartbeat when danger lurks.Thanks for another terrific, terrorizing series!!

Don't hesitate, fast moving, action packed, exciting plot lines. I couldn't read these fast enough! The romance is as intense as the plot action. I have read the series multiple times. An Excellent series. You won't regret reading ALL of Kaylea Cross's books.
