HAYDEN (Dragon Security Book 5)

Synopsis

Sam Oh my God, I have had about enough of Hayden. Yeah, I know how plain and frumpy I am, but does he have to be such an ass to me all the time? He torments me every day, calling me "grandma" because of my modest cardigans, flirting with every other woman in the office, laughing at me like we're in freaking high school. I'm sick of it, and I'm sick of him and his smug, handsome face. So believe me when I say I hate what Megan's making me do. Because not only am I being sent into the field for the first time, but she's partnering me with him. And she's making us pose as newlyweds. At the mercy of a man like Hayden, my new makeover will be the least of my worries. Hayden Sam's brilliant, sexy, sensitive and probably hates immoral bastards like me. I've always known Sam is beautiful, but man, I never knew just how gorgeous she really is. When she walks in wearing that form-fitting pink dress, I actually go speechless. I don't think that's ever happened to me before, but she is just that stunning. Under those baggy sweaters and long skirts there is an amazing, curvy body just begging to be touched. And now Megan has thrown the perfect opportunity right in my lap. I'm going to have fun selling the newlywed angle as long as I can keep my wits about me. Going undercover while feeling this distracted might be dangerous. For both of us.

Customer Reviews

I was taken aback that there was no HEA for the main couple. The poor frumpy h went through a lot to win the H's heart. After she gets engaged to the love of her life, she dies. This is not a romance. The h was like Rocky except Stallone still had his girl at the end while she did not live to fight another round.

I was not happy how this book ended. If I had known how it ended, I would not have read it. Why not give them a happy ending? Following their story in the other books, I couldn't wait to see their romance develop and have that happy ending. This was a great let down. Customrr

I love you as a writer though. I can't get enough of these security books!!!! But killing off Sam was just too much.

No.....just so wrong.....the ending....why??!! If anyone deserved a happy ending in this series, it was Hayden and Samantha!! Glenna Sinclair needs to do a rewrite with an alternate ending....I was loving this story right up til the part where I gasped in horror...then I kept reading thinking there was a fake out to throw readers off but no...just devastation....this left me sad and depressed.....no warning....not the romantic ending I was hoping for like the others in this series...

I loved this series, but HATE that Sam was killed. I would not have read this book if I'd thought you were going to kill off Sam. I read your books for the happily ever after. I wish I wouldn't have started this series now.

The story was going great till they killed off the heroine. I wish I knew that ahead of time. I just skipped over that part. Too depressing. I want happy endings!!!!

I don't typically review books...but I have to comment on this one. I can't believe it ended the way it did. Why...why...why!!! I expect to have some type of HEA - even if it is just one for now. I have read pretty much everything from this author and am in shock that she would end a story this way. I'm going to read the last one because I am so invested in how it ends but my heart isn't in it anymore.

I have loved all the books in this series. They are written in a way that I feel like I'm right there with the characters. I read these books to get away from the reality of life sometimes. I was so disappointed with how this story ended. Especially with all they both had been through. I feel Hayden and Sam should have had their happy ending.
