Customer Reviews

These books were sweet but not much substance to them. I liked the relationship between Cole and Abby and she is a smart and strong and he was equally sweet and a perfect boyfriend. All of that said, I kept waiting for something to happen. It felt like I was watching a day to day routine. Got to work, have sex, get a gift, say you love each other, have sex again, and start over. They really had little to overcome and I kept thinking something might become of a loose end- John, his parents, anything. Then at the wedding I was begging for Becca and Tristan to take the spotlight. Once again- nothing. I paid 99 cents for the whole set and if had been a cent more, I would have really complained. If you just want to read about one sex scene to another without much variation or plot, this is the book for you. The writers style was fine and I liked the alternating points of view but had I bought this one book at a time, I probably would have quit around book 3

I have read a lot of romance novels and I love a good plot. This book series had everything I look for and love to read and highly recommend it! In some romance novels all you read is sex but this one had a great storyline and a great realistic balance of extra curricular activities.

This was a great book. I enjoyed every page and I was so grateful that I had the opportunity to read the whole story and didn't have to wait for another part of the series. I was more than happy to pay a

nominal fee for that privilege. It seems that someone got the message that people are not crazy about reading parts of the series and to have to wait for the next installment. I highly recommend this book and I will be looking for more books by this author.

I would have given 5 stars but the reason i didnt is because the books are way to short and the author jumps from a day to the next week from one paragraph to the next. At times i got confused. Im glad i got them all at the same time cuz i wouldnt have wanted to keep waiting for just a short read. But overall the story plot is good and interesting. I really enjoyed reading it. I also wish the author would continue the book so we could see how thier lives turn out. Overall it was a good pick.

I enjoyed reading this book. The author introduced some humor to the otherwise very hot and sexy story. The complete series is a plus. All too frequently I read a book that gets interesting and bam! I have to purchase the next volume to follow the story through.

I honestly couldn't get into this book because of the POV. It was told from someone else's perspective so I felt as if I couldn't connect right from the first page. I really wish I could've read it because of all of the great reviews.. But, just couldn't.

Such a sweet story. The author really made you feel all of their emotions. I cried, I laughed, my heart hurt and then my heart felt the warmth and happiness. This is a must read and a must read again. I am about to read this again and even slower

It is easy to fall in love with this series. It's nice to see when the rich billionaires fall in love with the simple women instead of the ones that you find in magazines that are superficial. This book gives us simple women that we can achieve the man of our dreams even if it doesn't seem possible. Until Next Time.....Tabi
