Customer Reviews

This book is a remarkable combination of great insight and simplicity. The author takes us inside of her head as she explores her road to success and her rise to the top of her sport. WAIT--that description, though accurate, does not capture the essence of the book. It is her outlook, her concept of success, and the process that she goes through which is important. Her self examination, acceptance and ability to change and grow is inspiring. The book is short and easy to read, but writing it off as overly simplistic and idealistic, will only shortchange the reader. Most of the concepts are easy to understand and agree with; applying them requires more. Also, underlying it all is a deeper concept, less clearly spelled out but more elemental. As I read, I felt as though the author spoke to a truth inside of me, and shone a light on my path. I'm grateful to Mary Dee Kirchoff for sharing her experience and insight, and for making it so accessible. Whatever journey you are on, this is an essential travel guide.

Mary Kirchoff, a world champion athlete, tells a very honest story about aligning her body and her intention to improve her game and her life. The answer Mary finds is nothing less than how to

navigate toward ones highest purpose following synchronicity and joy.

This book is great for the upper elementary school and middle school competitive club athlete who has ambitions to compete on the state, national, and international level.

This book is an incredible way to look at life in a positive manner. It includes all aspects, not just athletic pursuits. It is written in a simple way so anyone can learn from it! Thanks Mary for sharing!
