Customer Reviews

I've been using this logbook for over 7 years and am on my 4th. It is a "real" logbook with places for all of the proper entries vs. the other ones found in marine stores with provisions for frilly entries (e.g., how much beer was on board). Being hard-bound it survives the seasonal punishment and when filled, it is nice enough to display in your bookcase with your other family treasures.

This is a very nice logbook..I like having the space to write about anything special that happened that day instead of just logging engine hours and times. There is room to add your killer whale sighting or eagle fly by....I think the memories from sailing are just as important as the engine times!

I bought this based on high reviews. Unfortunately, this is a great log book for Yachts/Sailboats, but not so much for just keeping track of a smaller vessels for recording hours for the USCG hours for your Captains License. For small vessel owners you'd be better off just buying a blank notebook and logging in you info.

I purchased this logbook for my husband to record trips, notes, visitors aboard, etc. He loves it!

Great quality and VERY affordable!

Great product with a lot of history. Information for boats interesting as it uses British Buford scale for weather which I find very helpful

Good product and good service.
