Battletech Field Manual 3145

Synopsis

>Field Manual: 3145 is the next installment of the Field Manual series set in the latter years of the Dark Age Era first described by WizKids MechWarrior collectible miniatures game. This sourcebook provides a complete summary of the military readiness of the various factions in the BattleTech universe in the year 3145, shortly after the events described in Steven Mohans Bonfire of Worlds epub novel, when the various factions of the Inner Sphere battle one another around the crumbling remains of the Republic of the Sphere.

Customer Reviews

This field manual does exactly what it says on the tin. It contains TO&E for all major factions of the Inner Sphere and Near Periphery in or about 3145, has construction rules for QuadVees, Tripods, Super Heavy Tripods, and Super Heavy Quads. Plus up-to-date RATS, and maps with locations and dispositions of forces for all the major Inner Sphere and near Periphery powers. But, as I do love BattleTech so, my review might be somewhat [askew](#).

Essential reading for anyone interested in the dark-age era of BattleTech. Fine product.

Exactly as I expected it to be.
