Customer Reviews

I freely admit that, in general, I am not a "new-agey" person and I have spent the biggest part of my adult life looking upon the various disciplines therein as little more than nonsense and "hooey". So, it was with a degree of reluctance that I agreed to appease my girlfriend's request to "open my mind" to the possibilities. She claimed that her friend (whom I generously referred to as, "Your crackpot friend") had taught her how to see auras. She wanted me to try it. I declined. She insisted. I declined again. She reminded me who is boss with an endearing pout. I agreed. However, before I invested any time with the "crackpot friend", I wanted to learn a little about what I was in for. This is the book I found. I began to read but, before my arrogant pessimism could fully

kick in, the author made a bold claim right out of the starting gate: "Anyone with vision out of both eyes can begin seeing the radiating energy aura surrounding every person, usually within just 5-10 minutes of training." "Okay, I thought. Prove it!" I eagerly flipped ahead to Chapter 10, "Retraining Your Eye Rods and Cones" to Exercise 7 which asked me to begin by focusing on a pencil. I went through the next few exercises and it seemed that the net result of my effort would be a pair of crossed eyes. But then, a funny thing happened. Our dog, Flearoy, walked in my office and, as the book suggests, I attempted to look "through" my beloved pooch. To my utter amazement, I thought I saw a yellowish haze emanating from Flearoy as he prepared to lick himself in a place I shall not name. At first, I thought it was my imagination but, doggone it, there it was!
