Contact From Planet Apu: Beings From The Future Among Us

Synopsis

In this revealing book, Ricardo González shares his incredible experiences with the Apunians, extraterrestrial beings that come from the future with a powerful message. The messages of the Beings are very precise and they have the elements to verify them. There is a hopeful future, but some old structures have to be transformed. What I would say to people is not to be afraid because fear is the antithesis of love. Fear paralyzes and does not allow us to make the right decisions. We have to open our consciousness to react according to that and to create a better future for us all. Extraterrestrials may support us but they will never solve our problems. The real contact is with ourselves.

• “Ricardo González

Customer Reviews

Ricardo Gonzales' book has the ring of truth and authenticity of someone who has had life-altering contact with highly advanced beings from beyond our time and planet. Ricardo has shared the fascinating story of his own contact over decades with peaceful, advanced beings that he came to understand as our own older brothers and sisters in the cosmos. What he shares has been confirmed to me by people I know who have also experienced contact with these peaceful beings as a result of working with Ricardo. This book conveys very important information about the larger family of intelligent beings that we are a part of in the cosmos, and the necessity of learning to raise our consciousness and connect through our hearts in order to understand and evolve as a result of contact with these ambassadors from our extended cosmic family.

For me this book was disappointing. The author falls into the common trap of making the book about himself - his travels, his speeches, his group sessions, his friends - rather than focusing on the beings themselves. The messages they wish to convey are somewhat lost amidst the clutter of personal details which aren't very interesting or important given the other directions this story might have taken. Perhaps there is more substantive material recorded elsewhere, but it doesn't appear to be available in English. Too bad.

Fantastic book which details the true amazing contact experiences with the beings from APU, and the important messages they bring to planet earth. I've been waiting for the english version of this book to be released for close to a year now, and I can honestly say, it did not disappoint. Author, Ricardo Gonzalez takes us all on an exciting journey through the different parts of Peru, and all the way to Northern California, to the majestic Mountain of Shasta, for some very profound experiences with the Apunian beings. Ricardo also gives us some history with these beings, going all the way back to the 1950's in Peru. And, features an interview between him and the extraterrestrial guide named, Antarel. There's also some information on the sacred Solar Disc. Those thirteen power objects that are placed in sacred spots around the planet which are made to raise our vibration when connecting to their frequency. And according to the extraterrestrial guides, the earth and the humans are part of this greater mission known as the cosmic plan. An interplanetary bridge of assistance between humanity and these evolved civilizations. This mission is for the evolution of humanity, the planet and the universe. I've attended some of Ricardo's contact retreats in the past, especially at a special one where there was direct physical contact between the extraterrestrial guide, Antarel and a famous journalist researcher. It was an incredible gathering which took place in beautiful Mount Shasta.... In the meantime, check out this great book and prepare yourself to connect to our star families from our future.

Rather disappointing as there is more written about the author's personal life and achievements than on Apu and the alien named Antarel. Another book, "Secret Journey to Planet Serpo", is more credible in my opinion. If the author is really in contact with the Apunians on a regular basis, I would expect more, such as photos of them, or the craft up close, rather than the usual photos of his team members and a few token photos of some tiny ufos in the mountains.

Ricardo Gonzalez takes us on an epic journey revealing valuable information about our Space brothers. We begin to realize that there is hope and that our future can be bright. I really felt deeply

connected to his description of the Brotherhood. I felt this book triggered memories stored within me to surface. I even got teary eyed in certain parts. I am so grateful that we have people like Ricardo and others doing this mission of spreading the message of our cosmic family.
