Postcards From Pluto: A Tour Of The Solar System

Synopsis

Get ready for a breathtaking trip around the solar system! Dr. Quasar, a robot, will be your guide as you ride along with a group of kids who are collecting facts on the planets, their moons, and the asteroids. As kids send postcards back to Earth, you can learn all about Jupiter's mysterious red spot, Saturn's beautiful rings, and all of Earth's fascinating neighbors in space.

Book Information

Lexile Measure: 490 (What's this?)

Paperback: 32 pages

Publisher: Holiday House; Revised edition (July 15, 2006)

Language: English

ISBN-10: 0823420655

ISBN-13: 978-0823420650

Product Dimensions: 9.7 x 0.1 x 9 inches

Shipping Weight: 12.6 ounces (View shipping rates and policies)

Average Customer Review: 4.6 out of 5 stars [See all reviews](#) (8 customer reviews)

Best Sellers Rank: #592,668 in Books (See Top 100 in Books) #49 in [Books > Science & Math > Astronomy & Space Science > Solar System](#) #317 in [Books > Children's Books > Education & Reference > Science Studies > Astronomy & Space > Astronomy](#) #7513 in [Books > Children's Books > Science, Nature & How It Works](#)

Age Range: 6 - 9 years

Grade Level: 1 - 4

Customer Reviews

From the beginning of this comic strip like tale of an outer space journey children are mesmerized by the non-fiction facts in such unique format. The illustrations are wonderful and accurately depict the details in the text. The actual postcards entertain while teaching and contain humorous addressees and addresses. Postcards From Pluto is a great way to introduce the solar system to kids. This book is a great investment, because it will be looked at and read time and time again!

Dear Lareen, I like your books. I read Postcards from Pluto. You are very creative and smart. I have read a couple of your books, and my favorite is Postcards from Pluto. It is a very good book to me. I'm glad you wrote some books because I really enjoy them.

I am a student seeking my bachelors degree in elementary education and love this book. It can be used during the thematic unit on space and the solar system. It is awesome!

My 2 year old daughter loves this book. She has learned that the sun is "very hot daddy" and loves the pictures of people on Mars. Very educational. Saturn needs more colour - it is not the prettiest planet in the book.
