## Synopsis

Do You Know How To Communicate With People Effectively, Avoid Conflicts and Get What You Want From Life? ...It's mostly about what you say, but also about WHEN, WHY and HOW you say it. **\*\*MY GIFT TO YOU INSIDE: Link to download my 120 page e-book "Mindfulness Based Stress and Anxiety Management Tools" for free!\*\*** Do The Things You Usually Say Help You, Or Maybe Hold You Back? Dear Friends, Have you ever considered how many times you intuitively felt that maybe you lost something important or crucial, simply because you unwittingly said or did something which put somebody off? Maybe it was an unfortunate word, bad formulation, inappropriate joke, forgotten name, huge misinterpretation, an awkward conversation or a strange tone of your voice? Maybe you assumed that you knew exactly what a particular concept meant for another person and you stopped asking questions? Maybe you asked so many questions, you practically started an interrogation? Maybe you could not listen carefully or could not stay silent for a moment? How many times have you wanted to achieve something, negotiate better terms or ask for a promotion and failed miserably? It's time to put that to an end with the help of this book. Lack of communication skills is exactly what ruins most people's lives. If you don't know how to communicate properly, you are going to have problems both in your intimate and family relationships. You are going to be ineffective in work and business situations. It's going to be troublesome managing employees or getting what you want from your boss or your clients on a daily basis. Overall, effective communication is like an engine oil that makes your life run smoothly, getting you wherever you want to be. There are very few areas in life in which you can succeed in the long run without this crucial skill.

## Customer Reviews

Everybody can talk, all of us can speak but do we really know how to communicate? Effectively? We have a competitive world, we won't survive a day without using our mouth to talk to someone and we surely wouldn't get by without exchanging messages with people around us. This book made a great job on telling its readers how to become successful when communicating. It is kind of long but detailed. I became interested on how to improve my communication skills after buying this book. I want to impress my boss, my officemates and other people just by the way on how I talk to them. It's like involving persuasion when you speak. Thanks to this book I gained more confidence when it comes to speaking.

Communication skills training was a great read as it helped me gain lot of knowledge. There was lot of information shared by the author in how to effectively communicate in the outside world or be it be anything as we need to speak up a lot to communicate. Until and unless we express as to what we feel we cannot confine things to others. Be it in a relation, office or anything, here the author has shared a great concept of how to communicate effectively and improvise ourselves. Great read and highly recommended one!!!

This guide is more than worth the sticker price, especially for those who have always struggled with public speaking. This book gave me more confidence when it comes to effective communication, which is an important part of being successful both socially and in the workplace. Tuhovsky does a good job guiding the reader towards an adept understanding of what makes a good speaker and

listener, and what can turn people off in a conversation. The skills gained in this book are useful ones sure to last a lifetime.

Simple, informative, and practical. If you are looking for a book that will help you communicate with others in various areas of your life then this is the right book for you! The language in the book is easy to read and jumps right into the material to get you started to improving your communication skills. The material written in this book is not a "do these simple tricks and your life will alter forever" but rather gives you the foundation and techniques as well as insights of how communication works to help better your skills. Overall I was very satisfied with all the content given in this book as it exposed me to ideas and concepts that I would have never come up with myself.

Communication is important because having a good communication skill is one of the key to our success. I want to improve my communication skills and I want to overcome my fear when it comes in public speaking. Whenever I talk in public I got easily distracted and I am afraid what people may say to me. I found this book very informative and interesting to read. This book helped me improve my communications skills. I have the guts now to talk in public and I am excited to apply what I learned from this book.

If you seriously care about an environment of harmony and teamwork in your home and workplace then you need to read this incredible book! This book helped me to speak to people in an effective way that gets my points across smoothly and clearly. Good insight into the art of communication.

Before I read this book I read all the reviews thinking this must be a good book. While the book has good information, the info can easily be found in a number of different blogs. The reason I rated this book so low is because of the constant grammar mistakes and typos. I buy a book to avoid reading the constant errors commonly found in blogs. This book is self published, which is not necessarily a bad thing, but the writer obviously did not bother to pay someone to edit his work before publishing it. If I pay money for a book, I expect it to be polished; there was an error on literally every other page. Based off the fact that of the 22 current reviews, not a single person mentioned the mistakes I have to suspect that the other reviews were fake.

This is a fantastic book, that guide to improve your communication skills. The author described different tips to improve skills. This book really guide for Emotional Intelligence , the EQ mastery

manual - EQ, problem solving, social psychology, social skills. Chapter 3: 8 more question you should ask yourself, this chapter really amazing that really guide to improve your communication skills. Highly recommended.
