## Customer Reviews

Okay so as a teenage girl, I didn't know what I wanted for my birthday. I bought this with a gift card. It came within 2-3 days. All the activities are super fun. Mess is MESSY xP This Is Not A Book is fabulously exciting. Wreck this journal (my 2nd actually) doesn't get boring! You can do things differently each time. The pocket scavenger? Kind of weird. I think the instructions are repetitive. If you are thinking about getting 2-3 of these books, BUY THIS SET! BUY IT! The books in the set say 15\$ a piece so yes 60\$. But on you get it for 30 or so YES

This box set is awesome! It allows me to go outside of my comfort zone in a fun and creative way that is hard to find anywhere else. it also acts as a great outlet for stress because of all of the crazy things that you can do it/with these books. Ive had it for a while now and i'm still barely through the first one!each book is unique and there is something for everyone!

I found this set right before Christmas and grabbed them up for my 12 year old. She thought they looked 'weird' at first but after completing a couple of pages she said she LOVED them! I'm very

pleased with the variety of projects and the way the author opens up the imagination. This would be the perfect gift for any crafty/creative person!

Loved these books! Very creative and arrived very quickly. I wanted something to do in my free time and now I have the books to do it.

This package is just what i wanted i boguht it for a bday gift and i was very pleased with my purchase

My 7-year old son loves the Keri Smith journals. He writes in them for hours. He typically does not enjoy reading and writing, but these journals really keep his attention.

Bought these for my daughter but wound up stealing them for myself - don't worry, she can help if she wants to!! am terrible at journalling, awful. I start, I stop, I forget, I get lazy about it. I wanted something that would allow me to play a little - recapture my creativity and express myself but not necessarily in a tradition journal. These books are it. They encourage you to get dirty, play, create, discover, think about the world from well outside the box.Huge fan and I will buy more when she comes out with more or when I finish my current set or when my kids try to steal them from me completely. You won't be disappointed in these books - they're just weird enough to be amazing.

I love this box set. It's something that my daughter and I can do together or alone making it kid, teen, and adult friendly. There is a variety of activities to do with it and it would be impossible to be bored. It makes a great gift for any family member, especially the young at heart and those who are adventurous.
