The reason I look for books by this author is for the story. I am going to get a happy ending, with twists and turns. Either the hero or heroine is going to be shy, misunderstood, brash, arrogant, lonely, but deserving of love and happiness. I enjoy the visuals the author provides of all the characters. Their native language, the country's, the landscapes, all provide the background for love.

This book was pure fantasy, but the characters were sympathetic and you wanted them to get together. There were no obvious flaws that drew you out of the story, and it's very easy to read, so I would definitely recommend this book as a beach read or just something to take a break from heavier content.

Good book. I have read a lot of romance novels in my life so it's hard to surprise me, but this story

was well told with characters that were well developed and believable and I really liked all of them. I will read more from this author!

I enjoyed this book even more than Caro LaFever's *Mistress By Blackmail*. As the story progresses, I found myself entangled in the struggles through which Jennet and Cameron were going, how vulnerable they each felt. My favorite character is little Robbie! He adds that element of joy and spontaneity. Very enjoyable!

I wish more heroes were like Cameron Steward. He's real "a blend of true hero and flawed man. He's been wild and free until the death of his mother brings him back to a mansion he hates and a son who hates him more. This story also had intrigue because Jenny, the heroine, is trying to steal a family heirloom from Cam. And she succeeds in that and also stealing his unsuspecting heart. Add in a really lovely taste of Scotland, a great kid in Robbie, and you have another LaFever winner. Can't wait to read the next book.

Lion of Caledonia was a beautiful story of love prevailing against all odds. I really liked this book and it's modern day fairy tale feel. This series is absolutely fantastic and I love that I can read them out of order as well. I highly recommend this entire series, but most especially this book. It keeps you on your toes the entire time and I could not put it down. Jennet learned at a young age, when she lost her parents and moved in with her grandfather, to be passive and never lose her temper. Her family has taken advantage of this over the years, but the worst thing they have asked of her goes against all her morals to do. Her grandfather asks her to steal a ring as his dying wish. Not just any ring, it's the ring that he gave to his true love, but she disappeared with it. She knows she must do this favor for him, but it's a constant struggle. Cam is an adventure seeking writer. When he loses his wife, he knows he must return to the house he thinks of as a prison to help take care of his sick son. He can't wait to get out, but knows it can't be possible when his son can't even step outside, or so he's been told. When he hires Jenny as his typist, she uncovers a lot more about this man and his son than he ever could have imagined.

Can I just say how much I love this series?! So many books in this subgenre are cheesy and not written well, this series is the exact opposite. Caro LaFever has ruined this genre for me because after reading her books, I can't stand to read anything else, she always leaves me with a book hangover. Lion of Caledonia is no different, it's very subtly a Jane Eyre retelling, well perhaps that's

the wrong word, it's got a Jane Eyre-flavor to it. Jenet has been hired as a live-in transcriber for the hero Cameron to dictate his latest novel too. Secretly, Jenet is on the search for a ring of her grandfather's that is somewhere on Cameron's estate. Attraction to each other leads to conflicts. I can't say much else without spoiling the story. This book was an interesting read for me for more than just the content, the hero had the same first and last name as my husband just with a different spelling! I keep asking my husband who this Jenet he's seeing is.\*A copy of this book was provided by the author through Candid Book reviews for an honest review\*
