Customer Reviews

There is going to be another book. That might be a spoiler, but for those who are like me, who don't stalk authors on social media, or keep up with what's going on all that thoroughly, and may have thought (like I did) that this was going to be the end, I thought I should start this review there. Truth is, I am not done with this book yet, I am about 3/4 of the way done, but I cheated and read the last few pages very early on (around page 50 or so), so I could see where things were going, and if they

were going to be wrapped up with this installment. I got annoyed right from the beginning with Sam and Mason's musings about protecting each other. I just knew this was going to be another case of them both either out right lying to each other or lying by omission to protect each other. Its just so contrived and over the top. In Fallen Fourth Down they promised not to keep things from each other, but that's exactly what they started doing within 2 pages of this book!! It's like Tijan cannot make them a strong couple who is really a united front and keep them honest. I feel like the romantic bond between the couple felt even less than it did in Fallen Fourth Down. The only thing I can really say positive about this one, is that Sam grows at least half a back bone in this one and isn't the whining weak girl she was in FFD-she was almost insufferable in FFD so really, anything would have been an improvement over that one.I no longer understand the point of this series. I liked the first three books. I read each one dreading the fact that it was ending, bbut quickly jumping into the next to see what happened. I could suspend belief and I cared about the couple. I couldn't wait for the fourth book.
