## Customer Reviews

The message was good, but the author didn't proofread or have someone else review the book because it was published. Several sentences were awkward or simply didn't make sense, several instances of simple incorrect grammar (your vs you're), and he kept calling the read "my friend or bud". Otherwise, it was interesting.

I purchased this book as a present to a male friend and we read it together. It was a very entertaining read. At the end of the book, we discussed about the advises given and we both believe that they are very effective. Me, as a woman, I would very easily fall for a guy that can communicate with his eyes. Because, on top of all, the eyes are the windows to the soul. Looking through my eyes onto the world, and looking through the eyes of others into their minds.

Men are dominant in nature. And ego is one of the most important things for us, we must set the standard, we must control the situation, be the alpha. And being an alpha isn't just in words but also in your body languages, even just in eye contact. If you are interested how it is done, then I suggest this book. It is very well written and detailed on how to achieve the body languages of an alpha male.

Almost no content. What little there is, it is painfully obvious the author has little insight and nothing to offer. Even worse are the obvious fake reviews. Something I feel very strongly about that should ban everyone involved. Ban the author. Ban every single person who is a professional reviewer or friend of the author. Should give serious consideration to extending the refund function to digital goods. Most people would avail themselves of it. Don't get me wrong, I'm a big fan of self publishing but there is a fine line between a self published book of worth and pumping out garbage to see who is willing to risk a couple of bucks on the off chance the author might know SOMETHING.

I dont understand why some people did not find this book helpful. i found it very useful and informative. mastering the art of eye contact is something that is diminishing slowly from our society. but the fact that eye contact is a very powerful tool to become dominant among your peers should not be ignored. the book is very detailed and has efficient strategies and techniques on how to master the art of eye contact. i recommend it to everyone.

This book is like the continuation of the book social skills which was also written by the same author. I bought this book because I honestly have a low self-esteem and I tend to be an introvert in most

cases. I found his advice's very useful to me especially on job interviews which is actually the reason why I bought this book in the first place. Thumbs up to Sean who has been helpful to my personal issues. I highly recommend his other book as well because when I read these 2 books it made it so perfect.

It's perfect for learning how to use eye contact. I have used its ideas and have learned how to make conversation with men better and especially with woman.

Brilliant topics, very easy to understand and grasp the concepts. Had fun exploring the text, and learning more about being an Alpha!
