A Season On The Brink: A Year With Bob Knight And The Indiana Hoosiers

Synopsis

Twenty-five years after it spent sixteen weeks at #1 on the New York Times bestseller list, John Feinstein's *A Season on the Brink* remains the classic of the genre and an unforgettable chronicle of his year spent following the Indiana Hoosiers and their fiery coach Bob Knight. This anniversary edition features an updated package and a new Introduction by Feinstein. Twenty-five years after it spent sixteen weeks atop the New York Times bestseller list, *A Season on the Brink* remains the most celebrated basketball book ever written. Granted unprecedented access to legendary coach Bob Knight and the Indiana Hoosiers during the 1985-86 season, John Feinstein saw and heard it all—practices, team meetings, strategy sessions, and midgame huddles—as the team worked to return to championship form. The result is an unforgettable chronicle that not only captures the drama and pressure of big-time college basketball but also paints a vivid portrait of a complex, brilliant coach as he walks the fine line between genius and madness.

Customer Reviews

Growing up, all I knew about legendary college basketball coach Bobby Knight was that he would rant and rave, throw chairs, get arrested, scream in his players' faces and snap at the media. During college, upon taking a class called "Moral Reasoning In Sport," I conducted research on Bobby Knight and got to know Bobby Knight as a person better. The ironic thing was that he stood for good morals but what he practiced as a coach bordered on the immoral at times. I saw how wonderful a man he could be and how badly he could cut a person down. I was fascinated by his style. My curiosity about Bobby Knight led me to "A Season On The Brink;" a book which describes the full

1985-86 season with Knight and the Indiana Hoosiers. Author John Feinstein, who trooped along with the team complete with notepad and tape recorder, crafts this book in amazing detail with all the trimmings. We are given a real life look at the pressures that college basketball can bring to both coach and players, the trials and tribulations. We are given a taste of how addictive competition is and the emotional effects it can have. "A Season On The Brink" describes Bobby Knight in a way that begs you to love him and begs you to hate him. Passionate about not failing, Knight pressures himself to succeed and is quick to think himself a failure each time he does not reach certain goals. His characteristic short fuse is always there to represent this. After the disastrous 1984-85 season where he performed the legendary chair throw that got him in trouble, he vowed not to go through a repeat season in 1985-86. He constantly reminded his players of that terrible season as fuel for them to create a better season in '85-'86.

Feinstein received Coach Knight's permission to have almost total access to the Indiana University basketball program during the 1985-86 season. By then, Feinstein had earned and deserved his reputation as a first-rate journalist. Presumably that was one of the major reasons why Knight was agreeable. Later, Knight was very displeased with the book based on that season. (I am reminded of what Harry S Truman once said when someone urged him to "give 'em hell" during the 1948 Presidential campaign. "I just tell them the truth and they think it's hell.") Two points seem especially important to me as a controversy about A Season on the Brink continues: This is Feinstein's account of what he observed and experienced; also. Knight and everyone else involved (including Feinstein) are entitled to their own opinion as to how accurate (if not "fair") that account is. My own opinion is that prior to and then following the 1985-86 season, Knight's behavior (including public statements) suggests that Feinstein's account is mostly credible. Since his playing days at Ohio State and then coaching at the United States Military Academy, Knight left no doubt that he was an intense competitor who loved the game with passion and studied it with intensity. He arrived at Indiana University a known quantity and was remarkably consistent (for better or worse) throughout the years he coached there. For every person who views Knight's values with contempt, there is probably someone else who admires those same values. He is obviously a complicated person. Also, as he himself has frequently conceded, he can be contradictory. (Years before the 1985-86 season, Knight observed "I don't agree with everything I do.") Many of the players whom he verbally abused the most were later treated with exceptional kindness and generosity.

"A Season on the Brink" A Season on the Brink, was a great book. This book was about a coaching

legend. Bob Knight, is described by many sport fans as one of the best coaches of all time. This is not just a plain old book. This book is about a coach walking between extreme madness and a complete genius. In August of 1984, Bob Knight of Indiana University, led the U.S Olympic basketball team to the gold medal. At that time, this was a master achievement to add to his two NCAA tournament championships. Many coaches to this day have not accomplished anything like this. In February of 1985, Bob Knight's sees glimpses of his career coming to an end. His team is struggling dramatically. The Hoosier supporters are curious to what is happening to their Indiana program. Now Knight is known to go a little haywire, so anything is possible. In February of 1985, Bobby Knight throws a chair across the floor as a Purdue player is preparing to take foul shots. A little haywire is absurd! This is something that one would watch in a hockey game, not a NCAA Basketball game. Knight was suspended for only one game after reacting like he did. After ending that season, Knight was to where sky was the limit, to rock bottom! Knight also knew if another season like this was to occur, that his career was on the edge. Entering the 1985-86 season, would be a season on the brink. Bobby Knight had been preaching his team that they needed to get into position to be in position. The Hoosiers were 2-2 in the Big Ten. Their next game was at home, against the Ohio State Buckeyes. This was a deciding game for the Indiana Hoosiers. This would give them a chance to be in the run for the Big Ten race.
