Customer Reviews

Shadows of Europe is the sort of book that I wish Catalyst could do. Heavily detailed about a continent, with good maps and information. Frankly, this is a must buy to me, as you get tons of info. about 13 regions in Europe. Admittedly, this is now 10 years out of date, but that is pretty easy to handwave. Shadows of Europe allows you to run a good European game, and has encouraged me to buy the other Shadows book that Fanpro put out. Well done.

This book is pretty good for those of you who have a thirst for the the places in Shadowrun besides Seattle and Denver. This book details most of Europe with the exception of the Balkans and western Russia which i suspect will be covered in Shadows of Asia. Shadows of Europe gives all the info needed to do runs and evan campaigns in Europe. Ranging from cities like London Paris to evan

Rome and Munich. This is a must for the runners tired of Seattle and Denver
