Tips for RVing With Dogs

This book includes over 400 tips. You pay pennies for tips that can save you hundreds of dollars.

About the Editors: As most folks do, we started out tent camping. In the late 1970s we ventured across the country from northern California to western Pennsylvania and back through Washington and Oregon in Steven's boxy old 1965 Chevy van. Those were the days, my friends. That trip had a lasting effect and over time we realized we were destined to be full time RVers. In 1995 we sold our house and a Recreational Vehicle became our home. An RV has been our home every since.

## Customer Reviews

I got this book because we are totally new to the RV world and need all the help we can get. As of this review we have a brand new travel trailer sitting in our driveway but have yet to take it anywhere. We have spent the past month getting ready for our first trip which is coming up soon. That means lots of shopping and finding as many good resources as we can to help us do things right. This book has been a Godsend and after reading it I feel much more confident about what we're doing and it will be nice to know we have a good reference we can refer to along the way. I loved the Quick Tips that were interspersed throughout the book and I book marked many of them. I also liked the handy RV website hyperlinks in my Kindle edition. I plan to join them all for more advice as we go. I highly recommend this book whether you're a brand new RVer or even if you're a seasoned veteran. I'm sure you'll find lots of helpful information for whatever issues you face. It seems to all be covered here.

Well written and thoughtful. I have been RV'ing for 40 years and still picked up many new ideas. I sent copies to several friends as well.

As a long time RVer, I found many useful tips. We are never too old to learn new things. I have already put new things into play in our RV life. A smart person learns from other's experiences. Not only can you learn to do things better, you can learn to save some money which is always helpful. You can also sign up for their email tip of the day and their email discussion group.

I highlight things of importance when I'm reading. Let's just say this book has more highlighted sections than non-highlighted. I have friends who--had they read this book--wouldn't have gotten detained at the border going north into Canada because they were trying to take firewood in. It covers everything from obscure but important hints like that to run-of-the-mill wish-I'd-thought-of-that-before hints like hooking the hose to the campground water first and running it for a while before connecting it to the rig to get "old" water out and avoid sputtering from air in the lines. I'm sure that even those who've been RVing for years will find some tip of value in this book.

My husband and I are planning on taking to the road within the next several months, so I bought this book primarily for me, a total novice when it comes to RVs. My husband, however, is an experienced RVer and declared this book indispensable. Just learned the print copy is out now, but not yet listed here on . This is the link to purchase it on CreateSpace (also an Amazon company, so hopefully Amazon will allow the link):[...] Thank you, Steven Fletcher, for putting all these valuable tips together in one book. You must have been thinking of me!

As a fulltime boondocker and Rv owner, this book is very valuable. It is full of great tips and advice for your travel needs. I am on rvbasics @Yahoogroups and boondocking@yahoogroups and a lot of this info has been used and found to be very sound. It is well worth the purchase price. Thx Steve and Fran....

Just tells you enough to get the amateur in trouble. More details are needed. If you are going to tell how to do something then go all the way.

As a new RV owner I find this book invaluable. Very easy to read and is filled with great tips and information. I'm using much of what I have learned and feel confident that the book has already saved me money.
