The Book Of Camping & Woodcraft: A Guidebook For Those Who Travel In The Wilderness

Synopsis

NOTE: This description is for the 2011 reprint with the green and black cover, NOT the 2012 reprint with the brown cover "published" by RareBooksClub.com. This 2011 edition is an EXACT reprint of the 1910 edition, and reproduces the original layout and illustrations perfectly. There IS NO gibberish or poorly OCR'd text in the one with the green and black cover. "Your thoroughbred camper likes not the attentions of a landlord, nor will he suffer himself to be rooted to the soil by cares of ownership or lease. It is not possession of the land, but of the landscape, that enjoys; and as for that, all the wild parts of the earth are his, by a title that carries with it no obligation but that he shall not desecrate nor lay them waste." H. Kephart Intended as the definitive pocket field guide for the turn of the 20th Century woodsman and camper, the *The Book of Camping & Woodcraft* was originally published in 1906. This particular "Heritage Edition" appears as it was on the second reprinting in 1910. In 1916, Kephart dramatically expanded the book into two volumes to include wagon camping and semi-permanent base camp construction. These are the equivalent of modern car camping - just a couple of notches down from a motel stay. The 1910 edition is the "purest" of all the editions of "*The Book of Camping and Woodcraft*". Fully illustrated with photographs and diagrams and packed with woodcraft lore, this book is a must-have for any rugged outdoorsman or bushcraft enthusiast.

Customer Reviews

This is a classic book and since it's so well known amongst "outers" the world over, I don't feel a need to review the content contained within - although, if you love the smell of leather and canvas you'll find it intriguing. I had never heard of Horace Kephart, but bought the reprint of the book since

Kephart is mentioned in HA Lindsay's 1959 book *The Bushman's Handbook* as a bit of a master in the woods. So instead of looking at Kephart's writing and ideas, instead let's look at the content and presentation of this particular edition of the book since I'm looking at my one right now. I uploaded the customer pics yonks ago before I'd even read the book. Just to be clear, my copy is a softcover, has a green and black cover with yellow writing and a stylized tent graphic. At the bottom of the front cover are the words "Field size 1910 heritage edition" in yellow. If this doesn't sound like the one you bought, then you bought some OCR'd crappy internet archive rehash so send it back for a refund. Inside, the book is meant to be fully illustrated with photos and line drawings - and indeed my copy is awesomely illustrated. Each page looks to be an exact reprint - my one is - rather than uncorrected text which has been run through a computer. Index entries should link up exactly to the correct page - my copy does. It should have a complete table of contents - mine does too. According to my copy, the page count is 331 pages. I've been reading and rereading this book for almost a year now and have yet to find a truncated or missing page.
