Title: The Hitman's Baby Series: Standalone Genre: Romance, Bad Boy

Romance Author: Ashley Rhodes Format: E-copy Published: 2 September 2016 Rating:

4 ⭐ "He was a bad man. There was no doubt about that. He sacrificed his moral compass at the altar of a higher purpose and for the most part he'd served it. There were few targets he'd been assigned that didn't have a reason to die. For this girl, though, he couldn't find a single reason. She was living in terror of being found but doing good in the world regardless. What was her crime? Where was her darkness? If she had it, she hid it well."

Then, he laid his hand gently on hers. "You don't need to," he said. "You don't need to," she laughed. "I know I don't need to, but I want to. I'm scared. I've been scared forever. But for the moment I feel almost safe...."

Never did I think that there could be a chance that hitman's have babies too! But they're also human, so I guess nature runs their course, right? In Nick Graves situation, nature ran a very different course. He was assigned to kill a target, just another one to his list, a cartel drug lord Emilio Gonzales. And after busting him off, he's daughter, Cassandra Gonzales was next. Even though she was pretty, he had a job to do. Just another mission. Cassandra heard of the passing of her father, the drug lord of Columbia. She was in hiding for most of her life, trying to hide away from her father's type of life. She didn't want to be a part of it, in retrospect she was the complete opposite of her dad. She was a humanitarian, caring for the homeless, and basically just trying to live a good life.

I was given this book as an ARC in exchange for a free and honest review! I love books that dive right in! Cassandra: Been on the run from her father's Cartel for years living a simple life helping others in soup kitchens, moving around often always being aware of her surroundings, to keep herself safe from her father's thugs or others that may want to harm her because of him, figures out quickly after years of protecting herself well that's all after a group of young men try to attack her they all get shot at except her, She knows she's been found, quickly she gets away, knowing she's got to leave again before they catch her, Nick: Hitman for hire, grown up in the system he has been trained since an early age how to steal, kill, and be a very bad man, it's all he knows, he killed Cassandra's father, next mission he's given is to kill her, after telling her he doesn't see why, she's no threat and doesn't seem to have an interest in taking over her father's Mafia, he sees the young

men about to beat and rape her, on instinct alone he kills them, he doesn't kill her, this will not be good, he chooses to abort the mission, he will have to save her now, if he can convince her to go with him, protecting her could get them both killed, but he cannot help himself, they share an attraction, they must part ways to stay safe, they wouldn't be able to ever see each other again, but fate has a funny way of working itself out. I gotta tell ya this book was better than I had anticipated it to be. I love Mafia/Hitman books, I read a lot of them, so sometimes I see a pattern in the storyline, I was pleasantly surprised this one was different.
