# The Garden Journal, Planner And Log Book: Repeat Successes & Learn From Mistakes With Complete Personal Garden Records. 28 Adaptable Year-round Forms, ... (The Garden Journal Log Books) (Volume 1)

## Synopsis

AS SEEN AT THE 2016 PHILADELPHIA FLOWER SHOW ~ The only garden journal sold in the Pennsylvania Horticultural Society's own on-site store. For the gardener who wants to enjoy the benefits of gardening, without the frustrations. FOR THE COST OF ONE SIMPLE GARDEN TOOL, you can OWN THE MOST VALUABLE GARDEN TOOL OF ALL ~ one that will save you money and help you learn from experience. Even more valuable than your favorite garden trowel or spade is a written record of what works in your garden. WHILE GARDENING BOOKS AND THE INTERNET ARE FULL OF GREAT ADVICE, THEY CAN'T REPLACE PERSONAL EXPERIENCE. Your garden is in your micro-climate, with your soil. Perennials in one part of the country aren't perennials in another. There are simply too many plants and too many variables for anyone to remember from year to year what worked where and what didn't and why. You need to remember WHAT WORKS FOR YOU--IN YOUR GARDEN. Every gardener faces repeat attacks of pests or disease and needs to remember which treatment worked and which did more harm than good. Every gardener has weeded out emerging perennials, forgetting what they planted where. Every gardener needs a memory! THE GARDEN JOURNAL, PLANNER & LOG BOOK is a book of garden forms with the flexibility needed to personalize your style of record keeping. With this one book you can track your purchases from store to harvest to propagation. What really makes the difference between a great and a mediocre garden is how well the gardener keeps track of all the information needed to enhance success and avoid repeated failures. GARDENING IS AN ART, BUT IT'S ALSO A SCIENCE. THE GARDEN JOURNAL, PLANNER & LOG BOOK is designed to make record-keeping simple and easy. Every form is designed to include all the pertinent information needed, while minimizing the amount of time required to record that information. Use as many or as few forms as you desire: Individual plant pages with over fifty possible check boxes for each plant, plus space for additional info, photos, drawings, seed packets or tags. Logs for annuals, biennials and perennials, with code, location and date planted. Logs for weather, formulas & recipes, pests and diseases, cultivation and propagation, bloom and harvest times, flowers, bulbs, fruit, vegetables, herbs, vines, shrubs, trees, wildlife sightings and hardscaping. Prune, trim and tidy logs with guidelines. Planning pages for up to four years. Draw out garden plots for twenty beds on graph paper with notes on the pages opposite. Purchase record logs. Supplier contact list. Keep a diary for all the things you simply must write out using sentences or drawings, because as much as gardening is a science, it is an art above all. YOUR GARDEN WILL LOOK LIKE ART, but you will know that THE GARDEN JOURNAL, PLANNER & LOG BOOK is the science behind your success.

## Book Information

Series: The Garden Journal Log Books

Paperback: 250 pages

Publisher: Hidden Cache Media; 1 edition (November 28, 2015)

## Customer Reviews

Finally! This is the perfect solution for my garden documentation. I couldn't tell from the page previews, but I took a chance after disappointment with other planners. This has everything I was looking for and more. There are sections for everything- recording weather, plot design, individual plant pages, logs for types of plants, the diary pages, propagation pages, and even formulas pages (I need to know eg how many gallons of water needed to give a 6 ft diameter raised bed one inch of captured rainwater, how many gallons cistern for 2000 sq ft of beds, etc). I worked out charts for permaculture guilds for our location which I will glue into the book. Otherwise all my other notes will be easy to consolidate here. Unlike other planners, this doesn't read like a how to book- it's just lots of really well designed pages for me to record and organize my notes. Bravo! And thanks a million. March 20th - I used a blow dryer to soften the glue to separate the pages, trimmed the edges, then made holes with 3 hole punch and placed in a big 3 ring binder. Just need a few more pages for logs and individual plant data -- did not know I had so much data accumulated over the past 3 years and to use divider pages for the major sections. I keep all my seed packets in a 4 inch thick binder too, in 4x6 inch photo pages, so I like having another binder solution.

I looked at numerous garden journals before choosing this one. It is poorly presented online, and you can't see inside to understand what makes this book such a good choice for a new or experienced gardener. There are pages for supplier contacts, weather logs, purchase records,

individual plant records, blank pages for designing your garden, graphing pages for designs, and logs for harvest and treatments. Lots of space to record everything, and information about pruning, dealing with pests, and conversion charts. I purchased one for a gift, but subsequently purchased two more after seeing this book "in person". The only thing that would make this journal completely perfect would be a spiral binding so that it could lay flat for writing. This is a great choice if you are looking for a gift or you need a gardener's "tool" for yourself.

I just received this book and am thrilled with all the different page styles for logging my gardening information. I used the Moleskin gardening journal last year and felt it was a good start, but I needed larger writing spaces and a greater variety of pages to log all the information I wanted to keep. Also, adding plant tags, photos and empty seed packets really distorted the book's shape. This book has pages for almost every bit of information I want to track, has room for photos and/or seed packets and can accommodate my large handwriting. I may take the author's advice and have the book spiral bound for easier use.

I looked at garden journals for hours on trying to decide what would be best. I got this one after reading some of the reviews because, unfortunately, there are no pics provided of the inside of the journal. I don't think there could be a better, more detailed journal out there! It's got it all, list for your contacts and suppliers, weather logs, pages for your garden plots complete with graph paper, pages for your individual plant info, lots of blank pages for every day journal entries and so much more! I highly recommend this journal if you are looking for something specific or if you aren't sure what you want in a garden journal. I will definitely buy another one after I fill this one!

This is the perfect solution to all the notes that get made just to get lost before the new growing season. Now I can make all my gardening notes in one place on these lovely forms. I love the fact that this is useful year round with the garden diary, planning, and wildlife spotting pages.

I am taking a Master Gardener class thru the county cooperative extension - - these pages are great for keeping all the information about sources for seeds, plants, dates for planting, pest, weather and many other records I will be so glad I can look back on. Love it.

This is a well thought out journal. It has categories for everything you might possibly want to record. I took mine to the printer and for \$5 they took it apart and spiral bound it. This makes it much easier

to use. The price of this journal was so reasonable that I didn't mind paying the extra to have it bound.

The Garden Journal, Planner, and Log Book. A few words about experienced author Joy L. Kieffer: Joy comes from a long line of farmers and has worked for J. Franklin Styer Nurseries, a major contributor to the Philadelphia Flower Show. The Garden Journal, Planner & Log Book is the result of knowledge gained from her family, co-workers and library at Styer Nurseries, and her experience running the Lifeworks Giving Garden - a food pantry garden - as well as the maintenance of gardens at four properties.-----This 250 page print book is a perfect solution to notes that tend to get lost before new growing seasons.â € Make all year round gardening notes in one place on these forms.â € Keep track of wildlife spotting etc,â € Appreciate and enjoy pruning, checking the soil, etc. Novices and professionals can enjoy the benefits of gardening without the frustrations. This book helps gardeners plan, record and observe the beauty of earth yields. It ably assists gardeners who can't be out in the cold weather to plan for when the weather improves. Plant zone maps are included and pest eradication/controls identified. The Garden Journal, Planner, and Log Book makes an excellent gift. Buy it, share it, enjoy. A well-deserved five stars.
