Protector Of The Pride (Lions Of Pride Island Book 3)

Synopsis

The third and final book in the Lions of Pride Island series! Axel Hunt knows what's expected from him in life. Find a mate that's suitable to the oracle, mate her, and rule his country, ensuring peace. But all of that is turned upside down when curvy Lucy comes into his life, drawing his attention as never before. Only problem? She's his secretary. And despite his heart screaming 'mate', the oracle hasn't picked one for him yet. Lucy has never planned to put down roots or settle down, but when she meets Axel Hunt, she realizes two things. First, he's hot and makes her feel all kinds of things she never expected. Second, he's hopeless with women and has no chance of winning over a mate when one is picked for him. With only a small ulterior motive, she proposes a win-win situation. Date her, just for pretend, and learn how to woo a woman. But when a make believe relationship turns into real feelings on both sides, Axel and Lucy will have to figure out if there is any way to reconcile their love with the needs of a nation, and how they can possibly face the dangers lying in wait. Handsome royal lions, curvy sassy mates, dark government secrets and a dangerous new shifter villains all come together in the Lions of Pride Island series. Each is a standalone. Customer Reviews

I'm so glad Terry did Axel's story last. He really proved he was the king of his domain. Lucy was just the woman for him she kept him on his toes and brought out the man he needed to be. The Oracle played him well. She really made him prove he was the right-hand to rule and protect his pride. He always put his people first. Never thinking about his happiness until Lucy. He was willing to give up his kingdom for his mate. This was a really good story. I love all of the books in this series. The brothers and their mates were so much fun to read about. I'm just sorry it had to end. Please do yourself a favor and read this book.

Lions of Pride Island book 3 does not disappoint. A king is made when he goes against all the rules and fights for the love of his mate. A mate that brings needed change in the palace and king. The battle begins and the story takes off. Funny, dramatic and sexy.

Book 3 was exciting. I wonder how the Oracle is going to play out everything. Axel is now King and a very strong one, I'm happy that he's finally living a lil carefree. Lucy was really starting to wreck in my nerves, there's nothing worse than a woman claiming she wants certain things than run from them exact things, but she eventually got it together after being kidnapped. I wonder how the next story will go since all the brothers have mates

Axel and Lucy are 2 of a kind. They both want more than they think the other can give. Little do they know the fates have been at play since the day they met. Can Axel finally reach out and take something for himself and will Lucy be ready to settle down and take up the mantle of queen? I loved this book in this series. You saw some of Axel in each book and you aren't disappointed with his story.

I have to be honest, I had trouble relating with the heroine at beginning of the book. The heroine, Lucy, practically goaded the heir to the throne into kissing her and taking her out. Her motivations seemed contrary, in one thought saying it is for his benefit, but then admitting to herself she wants him, then angsting over not wanting anything permanent with him. And again her not wanting anything permanent was partly because she did not believe she could be chosen to be queen and partly because she kept saying she never ever in her life wanted to be mated and have children. It just made it difficult for me to develop a rapport with Lucy. That said, as the book progressed it became clearer what the issues were and that the hero and heroine were both good people. There

was a little action which I very much enjoyed as it brought depth to the storyline. And I must say I am intrigued with a secondary character named Isaac. I hope we hear more about him in future books.

Having read all three books now, it's unanimous - all get five stars! Each of the three brothers has to woo and win the choosing of their mate by the oracle. Each story is beautifully written and interweaves with the others. I would recommend this book to anyone who needs to refresh their belief in true love - or just likes a good love story.

The last of this series was just as good as I knew it would be and leads us to the new series that Terry is writing about the dragons that are both out of sleep to help keep all shifters in line, have read all of the dragons that have been brought back from their sleep and they are a really great series, you will enjoy them as well.

King, yep, he was the king, just as soon as the Oracle named his mate. Of course, he'd have to get her to agree to mating with him, but he would be the king. What woman would say no to that? Until she named his future bride, Axel had plenty to keep him busy. Busy he had been since his teens when he'd taken over after his father's death. Lucy was his assistant/secretary. He'd come to depend on her. He was also way too attracted to her. Lucy didn't plan on mating anyone, but it had been a long time since she'd even played the dating game. Too bad he was her boss, and too bad she was who she was. Then they bantered until he began to wonder if he would know what to do when the Oracle named the woman. He didn't have time to date. His brother's had played enough for him too. What if Lucy was right and he couldn't win his named mate? Her offer to let him practice on her was just too much to turn down. He'd wanted her since she began working for him. Were they getting in too deep? Could they just play at dating and more? Would they be tempted to make it real? Or was it already. The Oracle wouldn't just let that go. Was there a chance Lucy could be his mate? No, life didn't work that way. Meanwhile, there was a lot going on and more every day he had to deal with. Was the Oracle up to something? How far would she go to get things under control? Could it be dangerous? Axel was busy at pretending. How long could he lie to himself and Lucy? Another winner for the author. We readers are the real winners. This one is touching, steamy and has two people (well lions) with sass, strength, loyalty and feelings deeper than they are willing to admit. Don't miss this wonderful conclusion to the series "and don't be too downhearted because it is the end. The next ones (at least I hope that is what is coming up next) looks like a

handful for whoever has to control these guys.
