## Customer Reviews

My all-time favorite book series is Harry Potter (Harry Potter and the Sorcerer's Stone), and I have always loved Greek Mythology, so I was so excited when I saw that this book combined mythology and witches. While this book is told from one girl's (Nicole), point of view, though there are really five main characters in my eyes: Blake, Danielle, Kate, and Chris. These five are a group of kids that wouldn't likely be friends at school, but a magical incident that happens one night on a school field trip bonds them together. Together these five are one super-hero team, The Elementals. The main action of the book is a scavenger hunt, which is a neat way to build this world of magic. This first book really helps to lay the groundwork for what I hope is a super fun series to come. My favorite character in this series is Blake because he feels really well developed through his actions and the things he says to Nicole. He's her forbidden love interest. Blake and Danielle are going out (even though Blake keeps saying he's going to break up with her!), but he says he's drawn to Nicole, just as Nicole is to him. Nicole knows nothing can happen, because she is not the kind of girl who is going to be a party to cheating – well, that, and she doesn't want bad blood, especially amongst their group who may very well be destined to save the world together. Though I'm hoping there is more to their relationship that will play out in the next couple of books! What I like about this book is the magic is based in mythology and it's not really heavy high fantasy, which I tend to get lost in – this is based in our world.

I Received The Prophecy of Shadows (Elementals) in return for an honest review from the publisher. Nicole has been uprooted due to her dad's new job to a new a larger town away from sunny Georgia. Her first day of classes prove to be far from what she expected after she arrives in homeroom to find that her teacher is a witch, and that he's not the only one. Pulled into a secret world of witches who are descendants of Greek gods but all of their abilities are mental. Nicole is a quick study it takes almost no time to learn how to channel the different colors. Nicole quickly befriends Kate and Chris who are in the class but it's clear that Danielle who happens to be dating Blake has it in for her. If only Blake wasn't so attractive and they didn't have a connection maybe she wouldn't be a target. After they end up a group under a comet what should be a routine mediation things start to change. Suddenly the once mental powers are now physical and each one of them has a different ability. Nicole's teacher reveals that a prophecy was told about her, and it sends the group off on a quest to solve it, testing them risking them all against mythical beasts. I liked Nicole she accepts that she's a witch and picks up her abilities quickly being pulled into a world she had no idea it existed. We have several characters that are supporting Nicole since she's part of a group of five. I like Kate and Chris right it was Blake and

Danielle I wasn't so sure about they actually grew on me for different reasons throughout the book. I like the idea of Nicole with Blake they just seem to work well together and I think Danielle may just run down the dark path in the future. I've had this one on my wish list since the moment I read the synopsis and saw the cover.
