A Rogue In Sheep's Clothing (The Albright Sisters Book 1)

Synopsis

In Lord Hugh Davenport's opinion, women of the ton perpetually hide behind a mask of deception. That's hard for Ellie Albright, the daughter of an earl, to swallow—especially since she's disguised herself as a stable hand to get back the prized stallion her father sold to Hugh to pay a debt. If Hugh learns her true identity she'll lose the horse and her family will go bankrupt. Somehow, though, losing Hugh's affection is beginning to seem even worse. Already only a step away from being snagged in her own web of lies, Ellie's deceit threatens to spin out of control when Hugh's mother invites Ellie and her sisters to a house party. Now Ellie has to scramble to keep Hugh from knowing she's the stable girl he wants to marry, while simultaneously trying to win his trust as herself. Can she keep her costumes straight long enough to save her family? And even if she does, will it be worth losing his love? This is a new release of a previously published edition.

Customer Reviews

This was just awful. I'm still trying to power through the rest of it, since I prefer to give a book a chance to redeem itself. But I had to stop and write this. What is wrong with this book? So many

things.1) It's not remotely in keeping with even the spirit of the time period. All of the characters act ridiculous, with no regard to propriety (which, while a silly concept in the modern era, was a critical part of social interactions in this time period). Most of the events that unfold are completely unrealistic. She steals your horse and so you catch her, pull down her pants, and literally spank her? She just stole something you spent a year's income on! A spanking? Really? And you don't even realize she's a woman even then? Her pants were off! The heroine and her sisters are invited to a house party and their parents just send them alone, with no chaperone? Really? Am I expected to believe that they're so worried about their daughters' reputations and then just let them go off alone to a house party? Then there was a very odd scene where the heroine basically master bated while riding a horse. Mid-ride. Is this real life and I just don't know it?2) Neither of the main characters were likable or relatable. The author pushes hard to make the heroine seem like a strong young woman doing whatever it takes for her family, but really it just comes across as a spoiled shallow girl with no thought to others. Stole her mother's best necklace to buy back a horse? A horse that she didn't even train well, if it will only let her ride it? How does any of that benefit anyone? Then later, she tries to rally the servants and estate workers to harvest the hay so they don't go bankrupt. Admirable, but she basically drives them all into the ground and treats them like her slaves.
