I loved reading High Mountain Bride (Timber Valley Brides Book 1), all about Charlotte Clark a young woman who is a mail order bride who has taken the train from Philadelphia, PA to marry Michael McBride a local farmer in Idaho. However when she arrives by train, the only person to greet her is Gil McBride the second oldest boy and he's only looking for a crate from the train conductor. He's definitely put off with everything Charlotte is saying, especially since Michael ran off

yesterday to the Boise territory to get married! She however has every single letter Michael ever wrote her, and it is his handwriting but what he told her was lies, nothing about himself, but everything about his, older brother Gil and all his life experiences. Including, how he lost the love of his life, when she left him for a much richer man, and he still sees her everyday in this small town they live in! Not only has Charlotte been duped, but he also took extra money to build a house, he never intended to build. The only thing she has to show is a bunch of letters and a few coins in the bottom of her satchel & the trunk filled with books from her dad she could not part with. She is destitute with no money, but insists that she is not and will stand on her own two feet, no she does not need money from Gil, she will make it on her own. However Gil insists on buying her dinner at the hotel, for the trouble his brother has caused. The author wrote a very nice story about an amazing young woman who is determined to make it on her own, with no help from anybody, especially nobody in the McBride family. Read this book and find out if Charlotte can make it on her own!

I love the historical western romances that contain true fiction that can feel like the real story. Hardened life styles can also have soft tender feelings. There seems to be a spark of good in everyone. Some let it show while others do not

Charlotte has lost everyone who ever loved her and she looks for love as a mail order bride, but she is duped and has her heart broken again Gil had his heart totally shattered and blames it all on love. Throw in his meddling grand parents trying to put the two of them together through out the story.

High Mountain Bride by Jillian Hart
Timber Valley Brides Book One
Charlotte Clark was finally going to have family again. And love. After losing her father and selling everything to pay his debts, she couldn't wait to have somewhere to call home once again. And from the letters she received, she already loved her future husband and his family. Arriving in her new town...her dreams washed away with the rain that fell. Gilbert McBride had loved and lost once. He was a wise enough man never to walk that path again. Ever. When another high mountain woman, just like the one who hurt him, was standing on the train platform, he wanted to ignore her. Soon enough, he knew he should have. Whenever I read a mail-order bride story, I think how those real-life women truly took a chance when answering an ad. They never truly knew what would be waiting at the end of their trip. Great story. **Sensual content

Jillian Hart writes nice, relaxing stories of romance and adventure. I enjoyed High Mountain Bride. The McBride brothers were fun characters. First there is Michael, who orders a mail-order bride, takes her money and then disappears the day before she gets to town, supposedly to marry another. Then Gil shows up at the train and finds Charlotte waiting for her groom. Another brother, George is just trying to stay out of the romance radar but has fun harassing Gil about it and Wally is sadly too young to take her off everyone's hands. Gil is convinced he can never love another woman, but there is just something about Charlotte that calls to his soul. And he feels responsible for her since Michael has ditched her. There is some humor in the story which is always important to a good story. And eventually, everyone gets their heads and hearts in the right places. There was a sexual situation, language was clean.

I felt that the description of the snow was the best part of this book. The characters could have been more realistic as they seemed to be (in the background) of the story. I thought the handmade saddles was an interesting part of this story but that so many were needed was unrealistic!

Charlotte was looking for a husband and family to love her. Was writing a man named Michael, when she got there he had married the day before. This was a great book.

This is a romance of struggle. It is somewhat naive and predictable. It needs some proofreading. There needs to be a more definite conflict with action.
