Customer Reviews

Jennifer Hayes has written an exceptional historical time-travel romance that captures the beauty of pastoral Victorian England with great characters, passion, and suspense. Emma, our heroine, is whisked away from the 21st century to the countryside of England in the late 1800's on a bolt of lightning. We learn snippets of how this is possible later on through another great plot twist. She is taken in by Lord Henry Drake and the two develop a very sexy push-and-pull romance as Emma

struggles to find answers to how she traveled into the past. Early on in the story Emma learns of Henry's untimely death and has to manage this knowledge, her desire return to her own time without altering the past, and a scorcher of a love affair. This book is an excellent, fast-paced, sexy read, with exciting plot twists. It has some really juicy love scenes so it is not for the YA crowd.

I really enjoyed this time-travel story. It kept my interest and was intriguing because the heroine's attitude and present-day outlook was kept up...which is pretty realistic, even though it could have gotten her killed. Of course, I loved Winn...how he bridged the gap. I will definitely download more of this author's work.

I'm always surprised when I find a decent time travel book. I've been disappointed in some of the ones I've read. The Outlander series set such high standards for time travel novels. This was pretty good. It held my interest from beginning to end and I'm looking forward to the sequel.

I read the one star reviews first and was worried about the mentioned cliff hanger. But based on the 5 star reviews I downloaded a sample. And I liked the story enough to buy the e-book. I'm glad I did. It's a fun story with many twists and I'm looking forward to the next installment.

I usually don't write reviews, but this is the best romance novel I have ever read! The writing just pulled me in and I found myself staying up late to read more. I have already given this book as a gift a few times. It is worth the read!

I must know what happens! A wonderful story and a cliffhanger. I can't wait to read #2! I Highly recommend

I liked the idea. I loved the ending and the unexpected villain. The love scenes were a bit awkward, but improved as the book progressed. I think the heroine could have tried a bit harder to adapt to her surroundings. Overall though, I enjoyed the book and will definitely read the next one in the series.

I was surprised at the excellent grasp of here and now. The heroine only had one panic episode, didn't feel pertinent to the story. Now for the bad news. A mere half of the story has been offered I strongly recommend waiting for the story arc to be published unless you like writing your own

version.
