## Customer Reviews

This book added nothing new to my knowledge of NLP. A majority of the book was spent stating and re-stating why it was controversial and the topic itself was barely covered. It was badly written and full of grammatical and typographical errors.

Book added nothing to my knowledge of NLP and alas confirmed my long-held suspicion that its practitioners think the rest of us are beyond stupid, which I guess would be the case if we were dumb enough to fall for this blindingly obvious, overly-simplified view of what can only by a real stretch be called negotiation. Can any of you say "Law School" - this is far below the level of Negotiation 101 - even below Improv in Theatre Studies. Do not waste your time.

This is nothing more than basic "NLP" knowledge, if even that. All the author talks about is what you will learn with "his NLP", but does not actually teach you anything? He keeps building you up to what you will learn, then the book is over and he didn't teach you anything??? No practical knowledge, no real world examples, and no real content. This was a very disappointing. Michael Pace has no business being an author and trying to teach a subject he clearly does not have a grasp on. Don't waste your money on this...

Rip-off. It has some good tips for rapport building with others, but the self mastery tips are just common sense. It also talks about some interesting and powerful dark NLP techniques in the intro WHICH IT DOES NOT GO INTO LATER ON--very disappointing!!!!Based on my other readings on NLP, this author does in fact demonstrate knowledge in NLP but he doesn't tell you how to use them very well. He just gives you a very elementary overview of the concepts so it's pretty much pointless. Not worth the money. Don't buy it.

It is OK .... Pretty much common sense stuff anyone who reads it already knows and doesn't realize it

This book is thoroughly researched and expertly presented. It provides the reader with shockingly powerful tools for success in a simple and elegant fashion. I was transfixed; and through the practices that I've discovered here, I fully expect to be transformed! Queue McPherson

Stolen Tony Robbins material. Go for the heavy lifting; buy Unlimited Power. All this guy does is water down Tony's work and tell Tony's stories with minor alterations.

Enjoyed every page and started using the simple NLP tips right away. My life and confidence level is changed immediately. A must read!
