Flourescence Microscopy Of Living Cells In Culture, Part A, Volume 29: Fluorescent Analogs, Labeling Cells, And Basic Microscopy (Methods In Cell Biology, Vol) (Vol 29)

Synopsis

Parts A and B, companion volumes on fluorescence microscopy, are sourcebooks of methods for living cells. Part A comprehensively covers methodology: fluorescent analogs, procedures for fluorescent labeling of various cellular structures, and fluorescence microscopy. Part B describes instrumentation and quantitation analysis for imaging and spectroscopy. Key Features* Convenient bench-top format* Comprehensive methods included for:* Tracing proteins, peptides, hormones, and toxins* Labeling cell surfaces, mitochondria, endoplasmic reticulum, and endocytic compartments* Preparation of fluorescent probes and their incorporation into cells * Culturing cells under the microscope* Basic fluorescence microscopy and imaging techniques

Book Information

Series: Methods in Cell Biology, Vol (Book 29)

Paperback: 333 pages

Publisher: Academic Press (December 12, 1990)

Language: English

ISBN-10: 0126847541

ISBN-13: 978-0126847543

Product Dimensions: 0.8 x 6.5 x 9.2 inches

Shipping Weight: 1 pounds
