Hack Your Mind To Become Bulletproof: How To Control Perceptive Filtering, Create Happiness On Command, Interrupt Destructive Patterns, Unlock The Power ... To Create A New Future Series Book 1)

Synopsis

Thoughts are Things Everything that we create in our lives, in our relationships, and in business is a product of our minds. Everything made by man in the physical world first formed as a thought, the thought was acted upon, and the physical result followed. This short book is a collection of the best tried-and-true techniques that successful people use to create a mind attuned to top-achievement. I've used these techniques on a near daily practice for the last several years - Develop courage and confidence- Cultivate the power of optimism- Control the events in your life, instead of letting them control you.

Customer Reviews

Good reminders when you forget to manage your thoughts. Not unique but short,easy to digest and clear. Worth having handy.

I came across this book because I had read a book by the author and enjoyed it quite a bit. This book has some good info but I found it a little lacking in specific strategies and would have liked more info.

This is a great little book with very easy to do mental exercises. I think the simpler the exercise the more effective.

Danny's guide has definitely changed my outlook on my life and circumstances. As entrepreneurs, we are dependent on ourselves (and our teams) to become successful at what we do. As a result, keeping a positive, healthy mindset is critical. This guide can help anyone to view themselves differently. I found the section about positive perception filtering the most helpful. Also, this guide has shown me how to be more effective in pursuing goals. Highly recommended.
