THE ADVANCED COURSE IN PERSONAL MAGNETISM. The Secrets Of Mental Fascination (Timeless Wisdom Collection Book 158)

Synopsis

In my previous Work, "The Art and Science of Personal Magnetism," I gave the principles and elementary rules for developing personal power and influence. In this work the subject will be continued, although it will be a complete work in itself, as no doubt many will secure this volume before they know there is a previous work. Those who have read "The Art and Science of Personal Magnetism" will better understand these advanced lessons, because we have repeated very little of the matter contained in the former work. I will not go over old-beaten paths, or indulge in abstruse terms, but will give in a condensed non-mystical style all I have been able to learn of this wonderful power, from the latest and ablest teachings on the subject. As in my previous work, all technical terms have been avoided, so that even the layman may readily understand. Some time ago one of my students asked me why I had met with such remarkable success in my teachings, and my reply was that, after many years of study, I have succeeded in working out a united system along purely scientific lines, which is practical and appeals to reason. In a short time the faculty of intuition is developed, and as one secret is unfolded the key to another is placed in the hands of the student. What I am giving you in this volume has been personally tried and proved. From my long experience I am certain that if you study the lessons and practice them, you can become magnetic and make good. If you have not met with the success you desire; if you have not been able to carry out your plans, just get busy and read my lessons carefully. Through your higher self you can come in contact with tremendous forces and you can master the secret of the Omnipotence of Natural Law. One thing I must impress upon you, and that is that you must always use your forces wisely. You must never attempt to use your power to further anything that is dishonest. If you should thus attempt to misuse the power you enquire, I can assure you with absolute certainty that you will draw unto yourself penalties in exact proportion to the wrongs you have done.

Customer Reviews

TRUE GEM!! This book supports the importance of heart magnetism, and staying in the highest vibration you can. Google the vibrational scale, most of the population is in the bottom predominately. Those rare wealthy, seemingly "lucky" people that we all meet at some point in time are people that stay at the top of the vibrational scale, and have expanded heart fields. Also google the heart math institute, the magnetic heart field is scientific fact, not new age gobblygoop. This book connected many dots.....

I found this book to be very practical. It has a lot of insides that will give you more awareness about certain behaviors that rob you of personal magnetism. The challenge that I found in this book is that when it comes to exercises some times the clarity is not there, but all in all they are morethen I found in any other books, and will make you feel stronger, and ready for action. If you don't do the exercises that is probably not going to happen for you, and if you don't read the previous work about personal magnetism you also will not get the full picture. In conclusion I would say this, if your goal is to become charismatic, you do need to add this books to your library.

This book is a must read for anybody seeking to make a substantial - life changing - difference at home and in the work place. Although this book has some vary abstract meanings buried within its writing, the book stands true to psychology and scientific backing. Overall, the book is a great read and a must buy. It truly should be read by all those who wish become "master minds!"

Too bad this book is not required reading in high schools, the lessons are invaluable. There is something in this book for everyone, the lessons are just as applicable today as they were a century

ago...

Great detailed book, with many helpful life lessons.
