The Seven Day Circle: The History And Meaning Of The Week

Synopsis

"Days, months, and years were given to us by nature, but we invented the week for ourselves. There is nothing inevitable about a seven-day cycle, or about any other kind of week; it represents an arbitrary rhythm imposed on our activities, unrelated to anything in the natural order. But where the week exists—and there have been many cultures where it doesn't—it is so deeply embedded in our experience that we hardly ever question its rightness, or think of it as an artificial convention; for most of us it is a matter of 'second nature.'

Book Information

Paperback: 220 pages

Publisher: University Of Chicago Press; First Printing edition (March 15, 1989)

Language: English

ISBN-10: 0226981657

ISBN-13: 978-0226981659

Customer Reviews

Well written, intriguing, informative. Well worth to spend your reading time every minute of it, if you want to know something about this ubiquitous human experience we call "week", which is strangely ingrained in our psyche.

Had to read it for school, interesting if a bit dry for sure.
